
\$3 prescriptions.

You read that right.

We're always looking for ways to help our members save—so we're reducing the cost of many of the most commonly prescribed drugs to \$3.

How to make \$3 prescriptions work for you

1. Check our list on the next page to see if any of your prescriptions are on it. The next time you fill that prescription, it'll only cost you \$3!
2. Don't see your prescription? Show this list to your doctor to see if there's an equivalent \$3 option that could work for you instead.

Other ways to save on prescriptions

With Oscar, preventive drugs (like some birth control and smoking cessation drugs) are free.

Also, if you take a medication that is not listed on our prescription list, ask your doctor if it makes sense for you to switch to an equivalent that is on our prescription list. You can find our prescription list on hioscar.com/search.

Another great way to save time and money is to use Doctor on Call whenever you need a refill. That way you can save a trip to the doctor's office (and a copay!)
