

To comply with the CMS Interoperability and Prior Authorization final rule, Oscar Health is required to annually report aggregated prior authorization metrics on our website. Specifically, this includes a list of all medical items and services (excluding drugs) that require prior authorization, as well as data on prior authorization requests for those items and services (e.g., approvals, denials, etc.) over the previous calendar year. Publicly reporting these metrics promotes transparency and accountability, helps patients understand prior authorization processes, and enables providers to evaluate payer performance. In addition, metrics can be used to compare plans, programs, and payers.

Oscar only offers commercial health plans. Oscar does not extend the timeframe to review prior authorization requests for these health plans. Accordingly, Oscar is not reporting information related to extensions.

*Note: CMS Interoperability Prior Authorization Statistics are directed by federal regulations which may differ from other required data disclosures.*
