

Get care 24/7 without copays, appointments, or hassles

When a minor health issue comes up, stay put and get the help you need right from home with Virtual Urgent Care.

Here's how it works

Log into the Oscar app or site and look for Virtual Urgent Care to book a visit. Tell us a few details and we'll reach out in as little as 15 minutes over the phone. Then, a provider will help you determine next steps and even provide a prescription or refill, if needed. It's really simple.

Think of it as your first step for things like:

- Sinus infections
- Sore throat, cough
- Allergies
- Skin conditions
- Nausea or vomiting

Virtual Urgent Care
