

Get meds with same-day delivery for \$0 with Capsule

Having what you need to get better just makes sense. That's why we partner with Capsule to give all eligible Oscar members \$0, same-day home prescription delivery.

Here's how it works

- 1 Tell your provider to send your prescription directly to Capsule just like they would any other in-network pharmacy.

or

- 2 Set up Capsule as your pharmacy right in the Oscar app before a Virtual Urgent Care consultation. It's built right in with our other pharmacies.

Capsule is \$0 for all Oscar members within a service area.

To check if Capsule is available in your area go to capsule.com/locations. You may also stay with your local pharmacy and ask them if they have mail order programs.
