## Frequently asked questions (FAQs)

Understanding your prescription medication coverage can be confusing. Here are answers to some commonly asked questions.

**Q. How often is my drug list updated? How do I know if my medication coverage changed?**

**A.** Express Scripts reviews and updates the prescription drug list regularly. We make changes for many reasons – like when new medications become available or are no longer available, or when medication prices change. We try to give you many options to choose from to treat your health condition. These changes may include:

- › Moving a medication to a lower cost tier. This can happen at any time during the year.
- › Moving a brand medication to a higher cost tier when a generic becomes available. This can happen at any time during the year.
- › Moving a medication to a higher cost tier and/or no longer covering a medication. This typically happens twice a year on January 1<sup>st</sup> and July 1<sup>st</sup>.
- › Adding coverage requirements to a medication. For example, requiring approval from Express Scripts before a medication may be covered or adding a quantity limit to a medication.

When a medication changes tiers or is no longer covered, you may pay a different amount to fill that medication. It's important to know that when we make a change that affects the coverage of a medication you're taking, we let you know before it begins so you have time to talk with your doctor.

**Q. Why doesn't my plan cover certain medications?**

**A.** To help lower your overall health care costs, your plan doesn't cover certain high-cost brand medications because they have lower-cost, covered alternatives which are used to treat the same condition. Meaning, the alternative works the same or similar to the non-covered medication. If you're taking a medication that your plan doesn't cover and your doctor feels an alternative isn't right for you, he or she can ask Express Scripts to consider approving coverage of your medication.

**Q. How do you decide which medications are covered?**

**A.** The Express Scripts Drug List is developed with the help of Express Scripts Pharmacy and Therapeutics (P&T) Committee, which is a group of practicing doctors and pharmacists. The group meets regularly to review medical evidence and information provided by federal agencies, drug manufacturers, medical professional associations, national organizations and peer-reviewed journals medications about the safety and effectiveness of medications that are newly approved by the FDA and medications already on the market. The Express Scripts P&T

Team looks at clinical review, as well as the medication's overall value and other factors before adding it to, or removing it from, the drug list.

**Q. Are medications newly approved by the FDA covered on my drug list?**

**A.** Newly approved medications may not be covered on your drug list for the first six months after they receive FDA approval. These include, but are not limited to, medications, medical supplies or devices covered under standard pharmacy benefit plans. We review all newly approved medications to determine if they should be covered – and if so, at what tier level. If your doctor feels a currently covered medication isn't right for you, he or she can ask Express Scripts to consider approving coverage of the newly approved medication.

**Q. I see several medications on this drug list that can be used to treat my condition. Will my doctor write me a prescription for all of them?**

**A.** No. Just because a medication is listed on your plan's drug list doesn't mean your doctor will write you a prescription for it. Your doctor will work with you to find the medication he or she feels is best for your specific treatment.

**Q. My medication needs approval before my plan will cover it (also known as prior authorization). What do I need to do to get it covered?**

**A.** Ask your doctor's office to contact Express Scripts so we can start the coverage review process. They know how the review process works and will take care of everything for you. In case the office asks, they can request authorization directly from Express Script's website at

**[www.express-scripts.com/corporate/healthcare-providers](http://www.express-scripts.com/corporate/healthcare-providers)**

Express Scripts will review information your doctor provides to make sure you meet coverage guidelines for the medication. If you do, you'll be approved for coverage of the medication. If you don't meet guidelines, you and your doctor can appeal the decision. We'll send you information either way.

For non-urgent requests, Express Scripts will let you and your doctor know within 72 hours of receiving the request. For urgent requests based on exigent circumstances, Express Scripts will let you and your doctor know within 24 hours of receiving the request was received. If Express Scripts doesn't respond to a completed prior authorization exception request within 72 hours of receiving a non-urgent request

and 24 hours of receiving a request based on exigent circumstances, the request will be considered approved and we can't deny coverage of the medication. Also, if you've already received approval from Express Scripts to cover your medication, Express Scripts can't limit or exclude coverage for that medication if your doctor continues to prescribe it to treat your condition (as long as the medication is appropriately prescribed and is safe and effective in treating your condition).

**Q. My plan doesn't cover my medication. I need to take it because it's medically necessary for my treatment. What do I need to do to get my plan to cover it?**

- A. If your doctor feels that your medication is necessary for your treatment and an alternative isn't right for you, he or she can ask Express Scripts to consider approving coverage of your medication. Ask your doctor's office to contact Express Scripts so we can start the coverage review process. They know how the review process works and will take care of everything for you. In case the doctor asks, they can request authorization directly from Express Script's website at

**[www.express-scripts.com/corporate/healthcare-providers](http://www.express-scripts.com/corporate/healthcare-providers)**

Express Scripts will review information your doctor provides to make sure you meet coverage guidelines for the medication. If you do, you'll be approved for coverage of your medication. If you don't meet guidelines, you and your doctor can appeal the decision. We'll send you information either way.

For non-urgent requests, Express Scripts will let you and your doctor know within 72 hours of receiving the request. If approved, coverage will be provided until the prescription runs out (including refills). For urgent requests based on exigent circumstances, Express Scripts will let you and your doctor know within 24 hours of receiving the request. If approved, coverage will be provided for the duration of the exigency.

If Express Scripts doesn't respond to a completed prior authorization exception request within 72 hours of receiving a non-urgent request and 24 hours of receiving a request based on exigent circumstances, the request will be considered approved and your plan can't deny coverage of the medication. Also, if you've already received approval from Express Scripts to cover your medication, Express Scripts can't limit or exclude coverage for that medication if your doctor continues to prescribe it to treat your condition (as long as the medication is appropriately prescribed and is safe and effective in treating your condition).

**It's important to know that when medications are approved, it's typically for one year of coverage.** If your medication is approved for less time, it's

because there's a clinical reason based on Express Script's coverage guidelines for the medication and/or the reviewing doctor.

**Q. My medication is part of the Step Therapy program. I don't want to try an alternative. What do I need to do to get my medication covered?**

- A. If you and your doctor feel an alternative medication won't work for you, your doctor can ask Express Scripts to consider approving coverage of your medication. Ask your doctor's office to contact Express Scripts so we can start the coverage review process. They know how the review process works and will take care of everything for you. In case the office asks, they can request authorization directly from Express Script's website at

**[www.express-scripts.com/corporate/healthcare-providers](http://www.express-scripts.com/corporate/healthcare-providers)**

Express Scripts will review information your doctor provides to make sure you meet coverage guidelines for the medication. If you do, you'll be approved for coverage of your medication. If you don't meet guidelines, you and your doctor can appeal the decision. We'll send you information either way.

For non-urgent requests, Express Scripts will let you and your doctor know within 72 hours of receiving the request. For urgent requests based on exigent circumstances, Express Scripts will let you and your doctor know within 24 hours of receiving the request. If Express Scripts doesn't respond to a completed prior authorization exception request within 72 hours of receiving a non-urgent request and 24 hours of receiving a request based on exigent circumstances, the request will be considered approved and your plan can't deny coverage of the medication.

**Your Step Therapy rights under California State law:**

1. A carrier may impose prior authorization requirements on prescription drug benefits.
2. When there is more than one drug that is appropriate for the treatment of a medical condition, a carrier may require step therapy.
  - a. In circumstances where an insured is changing policies, the new policy shall not require a repeat of step therapy when that insured is already being treated for a medical condition by a prescription drug provided that the drug is appropriately prescribed and is considered safe and effective. A new policy can impose a prior authorization requirement for the continued coverage of a prescription drug prescribed pursuant to step therapy imposed by the former policy. A new policy must also allow a prescribing provider to prescribe another drug covered by the new policy that is medically appropriate for the insured.

3. A carrier shall provide coverage for the medically necessary dosage and quantity of the drug prescribed for the treatment of a medical condition consistent with professionally recognized standards of practice.

**Q. How can I find out how much I'll pay for a specific medication?**

- A.** Prescription prices can vary by pharmacy. Before you fill your prescription, compare your costs online. Log in to the **Oscar** app or [hioscar.com](https://hioscar.com) and click on [hioscar.com/search](https://hioscar.com/search) to see how much your medication may cost you at the different pharmacies in your plan's network. You can also see if there are lower-cost alternatives available.<sup>1</sup>

**Q. How can I save money on my prescription medications?**

- A.** You may be able to save money by switching to a medication that's on a lower tier (ex. generic or preferred brand) or by filling a 90-day supply, if your plan allows. You should talk with your doctor to find out if one of these options may work for you.

**Q. What's the difference between brand name and generic medications?**

- A.** The FDA requires generic medications to provide the same clinical benefit as its brand name versions. The FDA also requires generic makers to prove that the generic works in the same way as the brand name medication. This means that generic equivalent medications must:<sup>2</sup>
- › Have the same active ingredient, strength and dosage form as the brand name medication
  - › Deliver the same amount of active ingredients into the bloodstream in the same amount of time as the brand name medication
  - › Be used in the same way as the brand name medication

Generics typically cost much less than brand name medications – in some cases, up to 85% less.<sup>2</sup> Just because generics cost less than brands, it doesn't mean they're lower-quality medications.

**Q. How do I know which pharmacies are in my network?**

- A.** There are thousands of retail pharmacies in your plan's network. They include local pharmacies, grocery stores, retail chains and wholesale warehouse stores – all places where you may already shop. And some stores are open 24-hours. To find an in-network pharmacy near you, log in to the **Oscar** app or [hioscar.com](https://hioscar.com) then click on [hioscar.com/search](https://hioscar.com/search) to start searching. Or call **855.672.2789**

**Q. Can I fill my prescriptions by mail?**

- A.** Yes, as long as your plan offers home delivery.
- › If you're taking a medication every day to treat an ongoing health condition like diabetes, high blood pressure, high cholesterol or asthma, you

can order up to a 90-day supply through our home delivery pharmacy. To get started, log in to the **Oscar** app or [hioscar.com](https://hioscar.com) and click on [hioscar.com/search](https://hioscar.com/search)

- › If you're taking a specialty medication to treat a complex medical condition like multiple sclerosis, hepatitis C, or rheumatoid arthritis, you can fill your prescription through Accredo, a specialty pharmacy. Accredo will ship your medication to your home (or location of your choice). To get started, call Accredo at **877.842.9788**. They're available Monday–Friday, 7:00 am–10:00 pm CST and on Saturdays, 7:00 am–4:00 pm CST. **Be sure to call Accredo about two weeks before your next refill so they have time to get a new prescription from your doctor's office.** You can also talk with an Accredo pharmacist at any time, 24/7.

**Q. I take a medication every day to treat diabetes. My plan has the option to fill my medication through home delivery. What do I need to do to get started?**

- A.** Some plans encourage you to fill maintenance medications through home delivery. "Maintenance medications" are the medications you take every day to treat an ongoing health condition like diabetes, high blood pressure, high cholesterol or asthma.

To get started using home delivery, log in to the Oscar app or [hioscar.com](https://hioscar.com) and click on [hioscar.com/search](https://hioscar.com/search) or call **855.672.2789**. Our home delivery pharmacy will deliver your medications right to your door (or location of your choice) and you can get up to a 90-day supply of your medication at one time. And you can manage your orders online or through the **Oscar** mobile app.

**Q. I take a specialty medication that can only be filled at certain pharmacies in the United States. How do I fill my prescription?**

- A.** You may be able to use Accredo, an Express Scripts specialty pharmacy, to fill your prescription. Accredo has access to most specialty medications. Ask your doctor to send them your prescription. To get started using Accredo, call **877.842.9788** for more information. Representatives are available Monday–Friday, 7:00 am–10:00 pm CST and on Saturdays, 7:00 am–4:00 pm CST.

**Q. How can I fill my prescription?**

- A.** First, you'll need to get a prescription from your doctor. Then, your doctor can either:
1. Send it electronically to the in-network pharmacy of your choice.

2. Give you a paper prescription. You can bring it to the in-network pharmacy of your choice, or you can mail it to home delivery.

**Q. How can I get help with my specialty medication?**

- A.** Managing a complex condition isn't easy. As part of your Express Scripts pharmacy benefits, you have access to Accredo, a Express Scripts specialty pharmacy. Accredo's team of specialty-trained pharmacists and nurses will provide you with the personalized care and support you need to manage your complex medical condition. They'll help you work through side effects, check in with you and your doctor to see how your therapy's going, help you get your medications approved for coverage, and more.

To get started using Accredo, call **877.842.9788**. Representatives are available Monday–Friday, 7:00 am–10:00 pm CST and on Saturdays, 7:00 am–4:00 pm CST.

**Q. Where can I find more information about my prescription medication plan?**

- A.** You can use the online tools and resources on the **Oscar** app or [hioscar.com](https://hioscar.com) to help you better understand your pharmacy coverage. You can find out how much your medication costs, see which medications your plan covers, find an in-network pharmacy, and see your pharmacy claims and coverage details. You can also manage your home delivery prescription orders.

**Q. How can I find out my cost-share for each tier on my drug list?**

- A.** Covered medications are divided into tiers (or cost-share levels). Typically, the higher the tier, the higher the price you'll pay to fill the prescription. Here are several places you can go to find out how much you'll pay for your medication based on the tier it's listed in, including the maximum cost-share amount allowed:

1. Log in to the **Oscar** app or [hioscar.com](https://hioscar.com) to view your pharmacy coverage information. You can also use the on [hioscar.com/search](https://hioscar.com/search) feature to find out how much your medication may cost you at the different pharmacies in your plan's network.<sup>1</sup>
2. Check your Summary of Benefits coverage document.

**Q. What's the difference between medications covered under the pharmacy benefit and medical benefit?**

- A.** Some medications are covered under the pharmacy benefit, some are covered under the medical benefit, and others are covered under both benefits. Typically, medications that are injected or infused are covered under the medical benefit. These are administered at a doctor's office, an infusion center or at home. Typically, medications that are self-

administered and can be filled at a retail pharmacy or through home delivery are covered under the pharmacy benefit. The medications in this drug list are covered under the pharmacy benefit. Check your medical summary of benefits coverage to learn more about how your plan covers medications under the medical benefit.

**Q. I take an oral cancer medication. How much will I pay for my medication?**

- A.** On January 1, 2015, California passed a bill limiting the cost-share for oral chemotherapy medications to \$250 per 30 day supply.
- › For copay plans: If your copay is less than \$250 you will pay the lesser amount.
  - › For high deductible health plans (HDHPs) that include a Health Savings Account (HSA) or qualified HDHPs: You'll pay your plan deductible first. After that, your coinsurance will be no more than \$250 per 30 day supply. If your coinsurance is less than \$250 you will pay the lesser amount .

**Q. Which medications are covered under the health care reform law?**

- A.** The Affordable Care Act (ACA), commonly referred to as "health care reform," was signed into law on March 23, 2010. Under this law, certain preventive medications (including some over-the-counter medicines) are available to you at no cost-share (\$0). Log in to the **Oscar** app, [hioscar.com](https://hioscar.com) or call **855.672.2789** or check your plan materials, to learn more about how your plan covers preventive medications.

**Q. How are medications, devices and FDA-approved diabetic, contraceptive and federally-mandated products covered under the pharmacy benefit?**

- A.** Here is how these products are covered under the pharmacy benefit:
- › **Preventive care medications and products covered under the Affordable Care Act (ACA), also known as "health care reform:"**
    - **Contraceptives:** Covered at 100%, or no cost-share (\$0) to you. Certain prescription contraceptives are available at their applicable cost-share.
    - **Tobacco cessation products:** All FDA approved prescription tobacco cessation products are covered at 100%, or no cost-share (\$0) to you.
    - **Certain vitamins:** Covered at 100%, or no cost-share (\$0) to you. All other prescription vitamins are available at their applicable cost-share and deductible (if applicable).
  - › **Certain over-the-counter (OTC) medicines:** Covered at 100%, or no cost-share (\$0) to you, if you have a prescription from a doctor. All other OTC medicines are excluded from coverage.

- › **Vaccines:** These are currently covered under the pharmacy and medical benefits. Not all plans will cover vaccines in the same way.
- › **Compounded medications:** All medications within the compound will need to be covered. If

any of the medications are excluded, you'll need approval from Express Scripts before your plan will cover them (prior authorization).

## Exclusions and limitations

---

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and be medically necessary. Your plan provides coverage for certain preventive prescription drugs with no cost-share. When you use a pharmacy that does not participate in your plan's network, the prescription will not be covered. Certain drugs may require prior authorization, or be subject to step therapy, quantity limits or other utilization management requirements.

Plans do not provide coverage for the following under the pharmacy benefit:

- › over-the-counter (OTC) medicines (those that do not require a prescription) except certain preventive prescription drugs or items, contraceptives and insulin unless state or federal law requires coverage of such medicines;
- › doctor-administered injectable medications covered under the Plan's medical benefit, unless otherwise covered under the Plan's prescription drug list or approved by Express Scripts;
- › implantable contraceptive devices covered under the Plan's medical benefit;
- › medications that are not medically necessary;
- › experimental or investigational medications, including FDA-approved medications used for purposes other than those approved by the FDA unless the medication is recognized for the treatment of the particular indication;
- › medications that must be FDA approved and that are not approved by the Food & Drug Administration (FDA);
- › medications used for fertility, sexual dysfunction, cosmetic purposes, or athletic enhancement;
- › prescription vitamins (other than prenatal vitamins) or dietary supplements unless state or federal law requires coverage of such products;
- › immunization agents, biological products for allergy immunization, biological sera, blood, blood plasma and other blood products or fractions as these items are covered under the medical benefit;
- › replacement of prescription medications and related supplies due to loss or theft, unless You are displaced by a declared state of emergency or drug is lost, stolen or destroyed prior to you taking possession, such as mail order drugs that are lost or stolen in transit;
- › medications which are to be taken by or administered to a covered person while they are a patient in a licensed hospital, skilled nursing facility, rest home or similar institution which operates on its premises or allows to be operated on its premises a facility for dispensing pharmaceuticals;
- › coverage for prescription medication products for the amount dispensed (days' supply) which is more than the applicable quantity limit(s) or dosage limit(s) set by the P&T Committee, unless such limits is allowed by an approved exception request;
- › more than one prescription order or refill for a given prescription supply period for the same prescription medication product prescribed by one or more doctors and dispensed by one or more pharmacies;
- › prescription medication products dispensed outside the jurisdiction of the United States, except as required for emergency or urgent care treatment. In addition to the plan's standard pharmacy exclusions, certain new FDA-approved medication products (including, but not limited to, medications, medical supplies or devices that are covered under standard pharmacy benefit plans) may not be covered for the first six months of market availability unless approved by Express Scripts as medically necessary.

## Words you may need to know

---

- › **Brand name drug:** A drug that is marketed under a proprietary, trademark-protected name. Brand name drugs are listed in all CAPITAL letters.
- › **Coinsurance:** A percentage of the cost of a covered health care benefit that you pay after you have paid the deductible, if one applies to the benefit.
- › **Copayment:** A fixed dollar amount that you pay for a covered health care benefit after you have paid the deductible, if a deductible applies to the benefit.
- › **Deductible:** The amount you pay for covered health care benefits that are subject to the deductible before your health insurer begins to pay. If your health insurance policy has a deductible, it may have either one deductible or separate deductibles for medical benefits and prescription drug benefits. After you pay your deductible, you usually pay only a copayment or coinsurance for covered health care benefits. Your insurance company pays the rest.
- › **Drug tier:** A group of prescription drugs that correspond to a specified cost sharing tier in your health insurance policy. The drug tier in which a prescription drug is placed determines your portion of the cost for the drug.
- › **Exception request:** A request for coverage of a non-formulary drug. If you, your designee, or your prescribing health care provider submits a request for coverage of a non-formulary drug, your insurer must cover the non-formulary drug when it is medically necessary for you to take the drug.
- › **Exigent circumstances:** When you suffer from a medical condition that may seriously jeopardize your life, health, or ability to regain maximum function, or when you are undergoing a current course of treatment using a non-formulary drug.
- › **Formulary or prescription drug list:** The list of drugs that is covered by your health insurance policy under the prescription drug benefit of the policy.
- › **Generic drug:** A drug that is the same as its brand name drug equivalent in dosage, strength, effect, how it is taken, quality, safety, and intended use. A generic drug is listed in this formulary in italicized lowercase letters.
- › **Medically Necessary:** Health care benefits needed to diagnose, treat, or prevent a medical condition or its symptoms and that meet accepted standards of medicine. Health insurance usually does not cover health care benefits that are not medically necessary.
- › **Non-formulary drug:** A prescription drug that is not listed on this formulary.
- › **Out-of-pocket costs:** Your expenses for health care benefits that aren't reimbursed by your health insurance. Out-of-pocket costs include deductibles, copayments, and coinsurance for covered health care benefits, plus all costs for health care benefits that are not covered.
- › **Prescribing provider:** A health care provider who can write a prescription for a drug to diagnose, treat, or prevent a medical condition.
- › **Prescription:** An oral, written, or electronic order from a prescribing provider authorizing a prescription drug to be provided to a specific individual.
- › **Prescription drug:** A drug that by law requires a prescription.
- › **Prior Authorization:** A decision by your health insurer that a health care benefit is medically necessary for you. If a prescription drug is subject to prior authorization in this formulary, your prescribing provider must request approval from your health insurer to cover the drug before you fill your prescription. Your health insurer must grant a prior authorization request when it is medically necessary for you to take the drug.
- › **Step Therapy:** A specific sequence in which prescription drugs for a particular medical condition must be tried. If a drug is subject to step therapy in this formulary, you may have to try one or more other drugs before your health insurance policy will cover that drug for your medical condition. If your prescribing provider submits a request for an exception to the step therapy requirement, your health insurer must grant the request when it is medically necessary for you to take the drug.
- › **Quantity Limits:** For some medications, your plan will only cover up to a certain amount over a certain length of time. For example, 30mg per day for 30 days. Quantity limits help to make sure you're receiving coverage for the right medication, in the right amount, and for the right situation. Your plan will only cover a larger amount if your doctor requests and receives approval.
- › **Age Requirements:** For certain medications, you must be within a specific age range for your plan to cover them. This is because some medications aren't considered clinically appropriate for individuals who aren't within that age range.

## Your prescription drug list

This document shows the medications covered on the High Performance Drug List as of January 1, 2021. All of these medications are approved by the U.S. Food and Drug Administration (FDA). Log in to the **Oscar** app, [hioscar.com](https://hioscar.com) or call **855.672.2789**, or check your plan materials, to learn more about the medications your plan covers.

## How to read this drug list

Medications are listed alphabetically by their brand and generic names within their therapeutic category and class.\* You can also find your medication using the index at the end of this drug list.

- › The generic version of a brand name medication is listed in parentheses and all *lowercase italicized* letters next to the brand name medication; the brand name drugs appear in all capital letters..
- › If a generic equivalent for a brand name medication is both available and covered, the generic will be listed separately from the brand name medication in all *lowercase italicized* letters.
- › If a generic equivalent for a brand name medication isn't available on the market or isn't covered, the medication won't be listed separately by its generic version.
- › If a generic medication is marketed under a proprietary, trademark-protected brand name, the brand name medication will be listed after the generic version in parentheses and regular typeface with the first letter of each word capitalized.

For example:

- › PRIFTIN ORAL TABLET 150 MG (*rifapentine*) - is an example of generic version listed in parentheses and all *lowercase italicized* letters ("*rifapentine*") next to the brand name in all capital letters ("PRIFTIN")
- › *cidofovir intravenous solution 75 mg/ml* - is an example a generic equivalent for a brand name medication that is both available and covered
- › *butalbital/acetaminophen* (Tencon Oral Tablet 50-325 Mg) Is an example of a generic medication ("*butalbital/acetaminophen* ") marketed under a proprietary, trademark-protected brand name ("Tencon")

\* Medications are listed in the therapeutic category and class provided by First Databank.

### Tiers

Covered medications are divided into tiers or cost-share levels. Typically, the higher the tier, the higher the price you'll pay to fill the prescription.

|        |                                                                                                                                                                                                                                                                                                                                                          |    |
|--------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Tier 1 | Consists of preferred generic drugs which have the same active ingredients, safety, dosage, quality and strength, as their brand name counterparts                                                                                                                                                                                                       | \$ |
| Tier 2 | Consists of preferred brand-name drugs (with no generic equivalent).                                                                                                                                                                                                                                                                                     | \$ |
| Tier 3 | Consists of non-preferred brand name drugs and other drugs that usually have generic versions and/or one or more preferred brand alternative on a lower tier, as well as non-formulary, non-specialty drugs approved for pre-authorization through a Medically Necessary review.                                                                         | \$ |
| Tier 4 | Consists of specialty drugs that are biologics, FDA requires distribution through a specialty pharmacy, require special training or clinical monitoring, or drugs that cost more than six hundred dollars (\$600) for a one-month supply, as well as non-formulary, specialty drugs approved for pre-authorization through a Medically Necessary review. | \$ |

Please see your Schedule of Benefits for your cost for each drug tier.

## Coverage requirements and limits

---

Some medications on your drug list have extra requirements before your plan will cover them.\* This helps to make sure you're receiving coverage for the right medication, at the right cost, in the right amount and for the right situation. These medications will have an abbreviation next to them in the drug list. Here's what each of the abbreviations mean.

**PA Prior Authorization.\*** Express Scripts requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, Express Scripts may not cover the drug.

**QL Quantity Limit.\*** For some medications, Express Scripts will only cover up to a certain amount over a certain length of time. For example, 30mg per day for 30 days. Express Scripts will only cover a larger amount if your doctor requests and receives approval.

**ST Step Therapy.\*** In some cases, Express Scripts requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B. An exception to Step Therapy requirement that factors in medical necessity may be requested.

**OTC Over the Counter:** An OTC drug is a non-prescription drug.

**ACA No cost-share preventive medications:** Health care reform under the Affordable Care Act (ACA) requires that most plans cover certain categories of medications and other products as preventive care services. These medications may be available to you at no cost-share (copay, coinsurance and/or deductible) and includes contraceptives and certain over the counter items. A prescription is required for over-the-counter preventive medications to be covered at no cost-share. Log in to the **Oscar** app or [hioscar.com](https://hioscar.com), call **855.672.2789** or check your plan materials to learn more about how your plan covers preventive medications.

**CSL Oral cancer medications subject to cost-share limits:**The maximum for oral cancer drugs is \$250 for a 30-day supply.

**LA Limited Access:** Some drugs may be subject to limited access or restricted access. This means that a drug may only be available at select pharmacies. Limited access may be due to the following reasons:

- › The FDA or the manufacturer has restricted distribution of a drug to certain facilities, pharmacies or prescribers, or
- › Certain drugs require special handling, coordination of care, or patient education that cannot be provided at a retail pharmacy. If the drug is approved, we will let you know how to get limited access drugs.

## How to read this drug list

Use the sample chart to help you understand how to read this drug list. This chart is just an example. It may not show how these medications are actually covered on the High Performance Drug List.
