

A better primary care experience in the palm of your hand.

Oscar's new Virtual Primary Care is a virtual doctor's office that comes to you. You'll see the same team every time, and they're with you for the long term. That way you can skip the waiting room and stay safe. And best of all, Oscar Virtual Primary Care visits are always \$0.

Welcome to Virtual Primary Care.

With Oscar Virtual Primary Care, you can schedule a video or phone appointment at a time that works for you.

Visits are \$0 and unlimited.

No gimmicks. Oscar Virtual Primary Care visits are \$0* every time—no exceptions.

It's a full primary care experience.

Your team can order lab work and imaging, and get most prescriptions refilled for you, without you ever having to leave the house. Plus, if you need an in-person visit, you can get a referral to see an in-network specialist.**

Health care doesn't end with the appointment.

It's a journey that requires a long-term partner. Your team includes experienced doctors, nurse practitioners, and medical coordinators. You'll talk to the same people every time, and they're here to support your unique health needs.

It's always on.

Get access to Oscar Virtual Primary Care any time, anywhere. Book a phone or video chat session through the Oscar app or call your Care Team at 1-855-672-2755 to get help with an appointment.

Note: Oscar Virtual Primary Care is only available for plans in Los Angeles County and Orange County.

Oscar's Virtual Primary Care offerings are only available for members ages 18 and over.

*Although the copay for your virtual visit is \$0, any prescription drugs, labs, or imaging ordered virtually will be subject to your usual plan benefits.

**Prescriptions, visits and services may be limited per provider discretion.
