Hi, we're Oscar!

Here are some things you might want to know about us:

“We started Oscar in 2012 to create the kind of health insurance company we would want for ourselves — one that behaves like a doctor in the family.”

- Mario Schlosser, Co-Founder & President of Technology

WHAT WE'RE DOING

We're making a healthier life accessible and affordable for all. We stand by your side no matter the question or the issue, so getting care is easy and you don't have to jump through hoops. It's health insurance that actually works for you.

WE'VE BUILT AN EXPERIENCE THAT WORKS FOR PEOPLE JUST LIKE YOU. HERE'S HOW:

Meds for \$3*!

We talked to doctors and members to figure out how to reduce Rx costs for the most commonly prescribed meds. So you'll be able to afford the prescriptions you need!

A team that has your back

You'll have the support of a Care Team, whose only job is to help you make the most of your plan. They do things like find doctors, coordinate your appointments, make sense of bills, and more.

Talk to a provider 24/7 for \$0*

Get the help you need without leaving the couch. Just request a Virtual Urgent Care visit and a provider will be in touch in as little as 15 minutes. They can help you with a diagnosis, new prescriptions, refills, and more.

*\$3 Prescriptions include up to 30-day supply of medication and are not available in NY or NJ for Catastrophic plans, small group plans, or Medicare plans.
*Oscar's Virtual Urgent Care offerings are not available in US territories or internationally. If you have an HSA-compatible high-deductible health plan or a Secure plan, you won't be eligible for \$0 visits. Prescriptions, visits and services may be limited per provider discretion.

Let's talk health insurance basics

Health insurance lingo can be confusing. So before we take a look at your plan options, let's go over some things that are helpful to understand!

HERE ARE SOME KEY TERMS TO KNOW

Premium

The fixed monthly fee you'll pay for your health insurance plan.

Copay

A fixed dollar amount you're responsible for paying for a covered service.

Co-insurance

How much you owe for a covered healthcare service or prescription.

Deductible

The amount you'll spend on certain covered services before your plan starts paying for your care.

Out-of-pocket

Any money you'll pay towards covered healthcare expenses – like deductibles, copays, and coinsurance.

Maximum out-of-pocket

The maximum amount you'll pay for covered healthcare expenses during the year. It's sometimes called MOOP. After you meet this amount, your plan will pay for all of your covered medical expenses.

Here's how our plans work

Oscar offers EPO plans with a range of premiums, deductibles, cost shares, and plan types – so you have options.

EPO (Exclusive Provider Organization)

EPOs cover care from a network of providers that work for Oscar or contract with us. If you get care with doctors outside the network, it's usually not covered – except in certain situations (like emergencies or if there are no in-network options available). The best part is no referrals are required to see a specialist.

That's it! We're also here to help you make the most of your plan – just visit hioscar.com with any questions.

Here's how our plans work

With an EPO, your health insurance kicks in when you see an in-network doctor. If you get care with a doctor outside the network, the visit isn't usually covered. The only exceptions include emergencies or if there are no in-network options.

The good news is, you won't need a referral from your primary care doctor to see a specialist. That means one less copay, and one less trip to the doctor's office.

HOW DO EPO PLANS WORK?

Let's say you want to see a dermatologist about a mole on your arm...

You can make an appointment to see an in-network dermatologist directly. And since no referral is needed, you can get that mole checked out ASAP.

HMO VS. EPO VS. PPO

HMO

Full access to the network
No out-of-network benefits
No referral required to see a specialist

EPO

Full access to the network
No referral required
Limited out-of-network

PPO

Full access to the network
Out-of-network benefits
No referral required to see a specialist

How to choose a plan

Understanding what health plan is right for you can be overwhelming and confusing. So, we put together a little guide that will help make it easier.

FIRST, PICK A PLAN TIER

There are 3 different metal tiers when it comes to our health plans: Bronze, Silver, and Gold. **You'll receive the same quality of care and the same benefits for all tiers.** The difference between them is the monthly cost and the amount you'll pay for care.

When you're deciding which tier is right for you, think about how often you'll use your plan and how you'll use it.

Bronze plan 	Silver plan 	Gold plan 
<p>Lower premium, higher out-of-pocket expenses</p> <p>Good choice if you don't expect to use your plan often, but still want coverage to protect you from very high costs</p> <p>60% of covered health costs paid by Oscar, 40% paid by you</p>	<p>Moderate premium, moderate out-of-pocket expenses</p> <p>Good choice if you're willing to pay a slightly higher monthly premium and get more care covered</p> <p>70% of covered health costs paid by Oscar, 30% paid by you</p> <p>Cost share reductions available if you're eligible</p>	<p>Highest premium, lowest out-of-pocket expenses</p> <p>Good choice if you seek a lot of care</p> <p>80% of covered health costs paid Oscar, 20% paid by you</p>

Next, pick a plan type *(aka suite)*

Within each tier there are 3 plan suites you can choose from at Oscar. The plan suites range from Simple to Elite. You'll see that the plans go from having coinsurance (a % of the cost for care) to just copays (a fixed cost for care).

HERE ARE THE DETAILS FOR EACH:

Simple	Classic	Elite
<p>Least expensive premium</p> <p>Most coinsurance</p> <p>Simple <i>(mostly available in Bronze and Silver metal tiers)</i></p> <p>Condition-specific <i>(Diabetic and COPD plans)</i></p>	<p>Mid-expensive premium</p> <p>Mix coinsurance & copays. <i>(You may have copays for labs but coinsurance for a hospital stay, for example.)</i></p>	<p>Most expensive premium</p> <p>Mostly copays, less coinsurance</p> <p>\$0 medical deductible</p> <p>Rx deductible included</p>

SO, YOU WANT A HEALTH SAVINGS ACCOUNT (HSA)?

But first, what's an HSA? It's a long-term savings account you can set up to pay for healthcare expenses with pre-tax contributions (that's money before it's taxed).

If you'd like to have a health savings account, look for a plan with "HSA" in the title. Then, all you need to do is choose an HSA provider and set one up. You can do so with your bank, [healthequity](#), optum, etc.
