hello@bikekeep.com

With Bikeep being smart about cycling infrastructure is simple.

In any infrastructure initiative, it is critical to get things right from day one. Bikeep has the right experience, expertise and level of service for that.

Big or small, your ambitions & challenges with bike parking always get the bespoke solution you need.

We have 1,100+ unique installations of our innovative bike docks.

Our installation base covers three continents and 20+ countries.

Altogether, our products serve 1M+ regular commuters worldwide.

PRODUCT GUIDE: A / Modular design with optional ground plates B / Galvanized metal bar C / RFID card reader D / Distress signal and live camera feed forwarding E / Customizable instructions F / Loud-speaker alarm

● ●●● MAKE BIKEEP YOURS

Your Bikeep. Your Colors. Your Brand. Your Configuration.

Our philosophy is **your property**, your Bikeep. With us, you can customise the color, brand and features you want for each specific installation.

Why? Because we believe that at the heart of innovation lies collaboration, creating a virtuous circle of trust and continuous improvements.

Send us a note at hello@bikeep.com and let's start with your first Bikeep today.

HOW IT WORKS: Your commuters can use a QR code; a free mobile app; a phone call or a RFID-based card to unlock your Bikeep
