<p>Welcome to Teladoc Health’s Expert Medical Opinion.</p>	<p>The Teladoc Health logo appears and transitions to a woman sitting on a couch asking questions.</p>
<p>Do you need medical questions answered by a leading expert, or a diagnosis double-checked? Whether you need help deciding on a treatment plan, guidance about the need for surgery, or anything in between - we can help.</p>	<p>Two doctors sit at a desk reviewing patient info. Next a nurse reviews a treatment plan. This transitions to someone being treated in a hospital bed and finally a mother and daughter having a conversation together.</p>
<p>Expert Medical Opinion is more than just a second opinion; it is a confidential process that complements the care you receive from your own physician by providing a second expert review, bringing greater certainty to your diagnosis and treatment plan.</p>	<p>A female doctor in a lab coat is proudly standing in a lab.</p>
<p>Teladoc Health’s medical specialists perform an in-depth analysis of your medical data, including diagnostic imaging, test results and pathology samples.</p>	<p>A female doctor sits and works at a computer to review and analyze patient medical data.</p>
<p>We provide an expert’s detailed summary of the findings, which we encourage you to share with your physician.</p>	<p>A man sits on a set of stairs in front of a building and smiles as he reviews the summary of the findings that he received back from his expert’s review of his case.</p>
<p>Next your medical records will be collected, including imaging and pathology samples, where it will be reread and may be retested. Then a specialist will conduct an in-depth review.</p>	<p>A specialist sits in an office working on his computer and reviewing patient data.</p>
<p>Once the review is complete, a doctor will compile the expert report and will review the report with you, at your requested time and answer any outstanding questions.</p>	<p>A doctor writes out a report and then it transitions to a man sitting on a sofa reviewing his report.</p>
