

MY IMPLANT BUSINESS IN-PERSON HANDS-ON EXPERT COURSE

► FOR NEXT GENERATION REAL BONE BUILDERS ◀

ABOUT DR. FRANK ZASTROW M.SC

ORAL SURGEON FROM HEIDELBERG, GERMANY

FOUNDER OF MY IMPLANT BUSINESS (EDUCATION AND MEDICAL EQUIPMENT)

He was a research associate in the maxillofacial department of the University Clinic of Heidelberg and Senior Physician at **Prof. Fouad Khoury** in the Schloss Schellenstein clinic in Germany until 2012.

In 2012, he founded the private clinic Dr. Zastrow & associates in Wiesloch, Germany and continues to give international lectures. He is an **international speaker** and founder of the Facebook group **REAL BONE BUILDERS**.

On this platform as well as on his Instagram account **@dr_frank_zastrow** with more than ten thousands of doctors all over the world, he focuses on **Biological Bone Augmentation** (BBA Concept) and the reconstruction of severe intraoral bone defects by means of the Split Bone Technique (Prof. Khoury) and purely autogenous bone and soft tissue.

IN-PERSON HANDS-ON EXPERT COURSE

This Hands-on course builds on the EXPERT Masterclass and is addressed to colleagues already displaying experience in the field of bone augmentation. It covers complex regenerative cases such as lateral defects, sinus floor operations as well as the premium class of augmentation, the discipline of vertical bone augmentation. All techniques will be practiced by means of specific synthetic models as well as on pig or sheep jaws.

Particular significance will be attributed to the proper soft tissue approach, which is highly recommended in association with the vertical bone augmentation procedure such as the parallel technique and the right-angle technique. The Semilunar tunnel approach (STA) as well as the tunnel technique (Khoury) will be trained and the participants will master the harvesting of bone by means of several devices. Potential sources of errors will be addressed, and distinct guidelines will be provided in order to guarantee a predictable, successful outcome. All presented techniques will be exercised under the supervision of Dr. Frank Zastrow

***This course is limited to 24 participants.**
