Cookie policy

What are cookies?

A cookie is a small text file that a website asks to store on a visitor's computer, tablet or smartphone. Many websites use cookies to give visitors access to various functions. The data in cookies can also be used to track the user's browsing on websites that use the same cookies.

How do I avoid cookies?

Most browsers can be configured to block the use of cookies. You can also set your browser to ask you to accept each new cookie a website sends to your computer. See the instructions in your browser's help section.

What do we use cookies for?

Cookies are used to make the website work correctly and to optimize the website´s functions.

We also use cookies to make the website work effectively, compile anonymous, aggregated statistics to understand how users use the website so that we can improve the website and deliver a good user experience based on user needs.

Which cookies do we use?
