

My name is:

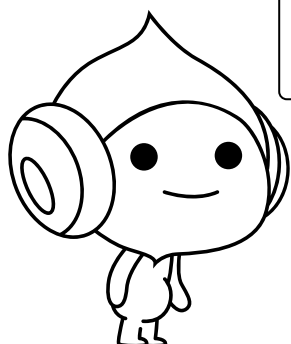

I spy

Search for Nano the alien and all their space-themed items! Look closely and see how many you can count!

Get counting!

1. How many moons can you find?
2. Nano the alien from Space Talk is hiding. How many Nanos can you count?
3. Locate all the stars and add them up.
4. Can you count the rockets?
5. Can you find all the 'Looks' Scratch blocks? Look closely, are they all the same?
6. How many planets can you see? They might not be where you'd expect them to be!

Hi, I'm Nano. Try and find me!
