## How does PS1000 MetaBurst work?

Researchers have discovered that certain metabolite molecules can protect people from weight gain, even when they consume high sugar or high fat diets.

Metabolites affect metabolism. These molecules control biochemical processes that convert fat stored in the body into energy. Metabolic processes are dysfunctional in overweight men and women, making it difficult to lose excess weight.

Metabolites are activated by optimizing metabolic processes. PS1000 MetaBurst contains exotic ingredients that target metabolism, turning your body into an efficient calorie-burning device. Enhancing metabolism efficiency helps to burn stubborn fats and release energy.

PS1000 MetaBurst boosts fat metabolism and reduces fat storage and production. It also regulates blood sugar levels and appetite. It reduces stress, anxiety and improves glucose metabolic rate. PS1000 also prevents

fat from accumulating in the body, and helps to preserve lean muscle mass.

## PS1000 MetaBurst Ingredients

PS1000 MetaBurst is a weight loss solution that contains 23 exotic ingredients. These ingredients target metabolic processes to help you lose weight. We will examine some of the active ingredients in this fat loss solution and their benefits.

**Bird Pepper Fruit Extraction** - Increases fat oxidation and thermogenesis to reduce overall calories, decreases appetite and inhibits obesity.

**Forskohlii Root** - It is effective and safe in reducing fat. It also plays a role in appetite suppression and fat breakdown. It supports weight loss and metabolic function.

**Astragalus Root** - is an adaptogen which protects and supports your immune system. It is also an energy booster and improves overall health. It helps with digestion, immunity, and nutrient absorption.

**Guarana seed Extract** - It boosts fat metabolic rate and thermogenesis, and reduces appetite. Guarana extract increases endurance, decreases fatigue and gives you a natural energy boost.

**Raspberry Ketones** - Helps to regulate metabolism, oxidize fatty acids and lipid metabolism. When combined with other weight loss ingredients, raspberry ketone increases their effectiveness.

**Grape seed Extract** - GSE is rich in antioxidants and supports healthy blood circulation. It supports cardiovascular health and metabolic support.

**Chromium Picolinate** - The ingredient reduces sugar cravings, and regulates blood glucose levels. It increases energy and promotes carbohydrate, fat, and protein metabolism.

**Gymnema leaf Extract** - is an Ayurveda containing chemicals that help reduce sugar absorption, stabilize blood sugar, reduce cravings and aid digestion. The ingredient helps to break down fat, improves blood circulation, and provides antioxidant protection.

**African Mango Fruit extract** - contains fiber, which aids in digestion and promotes feeling full. The extract promotes healthy cholesterol and insulin sensitivity, and reduces fat in the body.

**Maca Extract** - maca helps balance hormonal levels, increases endurance, reduces stress and promotes mental health. Maca root helps to reduce fat by preventing new

fat cells from forming. It supports a healthy inflammation response and improves mood.

**Eleuthero Root Extraction** - improves mental and physical performance by reducing fatigue, and increasing focus. Eleuthero helps the body adapt to stress, allowing it to cope with weight loss requirements. Eleuthero also promotes healthy blood sugar, improves exercise and recovery times, and reduces stress.

**Green Tea Leaf Extract** - helps to burn fat and promote thermogenesis. It also aids in the calorie expenditure. It is also an antioxidant and promotes overall health.
