What is Power Bite?

A poor dental health can lead to pain, cavities, gum disease, gingivitis and periodontitis. Some dental problems can negatively affect our digestive system, causing indigestion or other gastrointestinal issues.

Most dental problems are caused by preservatives, colors, and chemicals that make our saliva acidic. Saliva then causes dental erosion and affects your teeth, gums, and enamel. You will experience tooth decay, pain, and destruction as a result.

Power Bite is an all-natural remedy for dental and gum problems. The formula reacts by providing thermal calcium which is unique and reacts with the temperature of your mouth. The calcium strengthens your teeth by sealing the tiny holes through which bacteria and acid can enter.

The dental healing candy neutralizes your saliva and uses up all of the heat from your mouth, allowing you to maintain a healthy pH in your mouth. The formula contains essential minerals that strengthen your teeth. Minerals also contain nutrients that nourish and revitalize your gums and teeth.

Power Bite's soothing thermal calcium provides an invisible barrier of protection to prevent future damage. Natural ingredients found in the formula for dental support have numbing properties that reduce pain and discomfort. The formula is rich in anti-inflammatory and antioxidant properties, which support the immune system and reduce inflammation. It also fights free radicals, which may cause gum infections.

Power Bite corrects the bacterial imbalance within your mouth and supports the digestive system. Xylitol is effective against *Streptococcus mutans*, the bacteria that

causes plaque and damages teeth. Xylitol is a sugar substitute that stops bacteria from damaging teeth.

Power Bite Ingredients

Power Bite is a blend of powerful minerals and plants that support gums and teeth. Each ingredient is 100% natural, backed up by scientific research. According to the website, these are the ingredients:

Calcium Carbonate

Calcium is necessary for the building of healthy bones, muscles, and nerves. It reduces heartburn and other digestive problems such as indigestion. Calcium carbonate is a daily supplement that helps remove plaque and stains from the enamel. Tartar can help to keep the gums healthy and reverse the effects caused by tooth decay. This ingredient can be used to treat liver damage due to heavy metals.

Myrrh

Essential oil myrrh promotes dental and gum health. Due to its numerous benefits, it is a major part of Chinese and Ayurvedic medicines. Myrrh has antibacterial properties which kill bacteria and boost the immune system. It reduces inflammation and increases the risk of infection by reducing inflammation.

Myrrh is used to treat a sore throat, swelling of the gums, and wounds within the mucosa. The ingredient also helps to clear cavities and provide fresh breath. According to a study, people with Bechet's disease benefitted from using Myrrh at least four times per day.

Wild Mint

Wild mint contains menthol which helps to clean teeth and breath. This ingredient is rich in nutrients that promote a healthy digestive system, brain and can reduce symptoms of irritable bowel syndrome. The antioxidants in mint help to fight the free radicals which cause gum disease. Mint also helps to boost your immune system and protect you from illnesses.

According to studies, mint reduces anxiety, fatigue and frustration. Its aroma can help calm your mind and your body while reducing blood pressure. The mint plant is good for boosting the brain's function, as it improves alertness and concentration.

Xylitol

Xylitol contains flavonoids, which help to reduce inflammation and boost immune functions. This natural ingredient can replace sugar. Also, it supports dental health by reducing the risk of decay. Xylitol reduces the

growth of bacteria that cause plaque. It helps to support collagen production which is important for the relationship between teeth and gums.

Lysozyme

Lysozyme plays a key role in the prevention of dental plaque. It also reduces the chance of decaying teeth and improves your teeth's strength. The benefits of Lysozyme extend to the entire body.

Mediterranean Sea Salt

Mediterranean Sea Salt is good for you because it contains minerals and is low in sodium. It helps with weight loss and increases the production of digestive fluids. Consuming Mediterranean Sea Salt reduces constipation risk and other gastrointestinal issues.

Anti-inflammatory properties help to soothe inflammation from eczema and acne. The health benefits of Mediterranean Sea Salt are the main reason why people use it in their baths. Addition of sea salt in water can help reduce asthma symptoms and improve breathing. Power Bite contains Mediterranean Sea Salt to support enamel and gum tissue.

Clove Oil

In Indonesia and Madagascar, cloves are found naturally. Clove oil is good for dental health, and helps prevent toothaches. It reduces the pain associated with dental surgery and provides a fresher mouth. Cloves contain eugenol, which is a compound that supports oral health. It reduces pain in the mouth. The essential oil has a numbing action that prevents tooth pain for up to three hours. Clinical studies have shown that clove oil reduces tooth discomfort, gum disease and can inhibit bacteria growth. It also treats throat and mouth infections.

SUGGESTED USE: As a dietary supplement, adults take one (1) soothing candy daily, before going to sleep. You can chew on it or let it melt into your mouth.

Power Bite: Benefits and Uses

Remineralize your enamel - is a natural way to repair teeth. Power Bite contains calcium which strengthens your teeth and seals the tiny holes that bacteria can use to

enter your enamel. The formula replaces minerals lost, preventing tooth decay.

Maintain a healthy pH in your mouth - The Power Bite uses all of the heat produced in your mouth to neutralize the PH. It helps to prevent dental erosion, and also combats the acidic saliva that can destroy teeth and gums.

Protect your teeth from future damage - The soothing thermal calcium found in Power Bite creates an invisible layer that shields your enamel against future damage. The warmth in the mouth increases the thickness of the protective layer.

Stopping the harmful bacteria - The xylitol found in Power Bite increases saliva flow and starves the bacteria responsible for gum and tooth problems. Less bacteria means less plaque, and other dental issues.

The mineral candy helps to maintain your dental health and gums. It helps to prevent dental erosion, which is the primary cause of decay, pain and plaque.
