How does Pineal Guardian work?

The pineal gland is involved in processes that affect memory and cognitive functions. Over time, toxins can build up around the pineal, causing poor memory, insomnia, low energy levels, anxiety, stress and premature aging.

Melatonin is produced by the pineal gland to modulate sleep-wake cycles. Melatonin helps to improve sleep, and also supports declarative and procedural memories.

Pineal Guardian formula eliminates toxins and promotes healthy pineal gland functions. It promotes cognitive functions such as memory and mental clarity and helps to maintain consistent sleep patterns. It has neuroprotective qualities that prevent cognitive decline, fight oxidative damages, and maintain memory.

Memory-boosting supplements can help to reduce age-related memory disorders and mental decline. It improves memory, mood, learning, and focus.

The Pineal Guardian formula boosts energy, vitality and physical and mental performance. It improves the quality of your life and brings harmony to your body.

Pineal Guardian Ingredients

Pineal Guardian is a blend consisting of nine ingredients which have been scientifically proven to enhance memory function. The website states that the ingredients are both local and international. Components are organic, free of GMOs and heavy metals or chemicals, as well as stimulants. The following are all the ingredients that have been researched and their functions:

Pine Bark Extract

The bark of the Pine tree is used to extract antioxidants. Antioxidants protect the pineal from inflammation and oxidative damage. Pine bark extract enhances cognition in both older and younger individuals.

It improves brain health by reducing inflammation that is linked to neurodegeneration.

Tamarind

Tamarind is a neuroprotective agent that protects brain cells against oxidative damage. It is also important in detoxifying pineal glands, which are responsible for removing heavy metals and toxins.

Tamarind is rich in minerals and vitamins which improve the function of neurotransmitters within the brain. It

protects against calcification of the pineal gland and increases vitality.

Chlorella

Chlorella cleanses the pineal. It is rich in vitamins, minerals and amino acids, which support brain health. Chlorella supports immune function and reduces systemic swelling.

Ginkgo Biloba

Ginkgo biloba helps to improve blood circulation in the brain. It also supports the delivery of nutrients and oxygen to brain cells to ensure optimal function. It contains antioxidants such as flavonoids and Terpenoids that protect brain cells from oxidative damages.

Ginkgo Biloba balances the neurotransmitters and helps regulate mood, sleep and cognitive function. It improves memory and focus, and prevents cognitive decline.

Spirulina

Spirulina is rich in vitamins and minerals which support brain function. Its antioxidants prevent brain cells from being damaged and remove toxins from pineal gland. Spirulina helps to reduce inflammation, promote vitality and well-being.

Lion's mane Mushroom

The lion's mane mushrooms has neuroprotective qualities. It helps to produce the nerve growth factors, which aid in nerve repair and growth. The mushroom prevents neurodegeneration and reduces brain inflammation. It also boosts memory.

Bacopa Monnieri

Bacopa Monnieri boosts memory. It improves learning and focus, enhances communication between neuronal cells, and protects the neurons from damage.

It reduces anxiety and stress, and improves overall cognitive performance.

Moringa

Moringa contains vitamins and minerals which are beneficial to the brain. It can reduce inflammation which may lead to neurodegeneration and protect the neurons against oxidative damage. Moringa reduces anxiety and stress, and improves mood.

Neem

Neem promotes detoxification of the pineal and protects neurons from inflammation. It helps to fight age-related

cognitive decline, and improves cognitive function including memory. Neem increases immunity and helps remove calcification from the pineal gland.
