2. Neutral Reviews: A Fun Experience With Some Reservations

Some customers were happy with the service but had doubts about its accuracy. The artistry and the effort put into the service is appreciated, but they may not feel the drawing represents their ideal soulmate. - Michael B. says, "I did not feel a strong attachment to the sketch but it helped me reflect on what i'm really looking for in a relationship."

3. The Critical Reviews: Skepticism & Concerns

Tina Psychic has received criticism for its services, as with any service that ventures into the mystical. Some reviewers think the sketches are generic and question the validity or the psychic insights. Some reviewers have been dissatisfied with the service. They feel that the readings and sketches do not deliver on the promise to reveal their soulmate.

- Jessica T. comments: "The sketch was beautiful, but I do not think it is something to be taken too seriously." I wanted a more detailed description of the psychic process.
- Mark P. comments, "I did not see any resemblance and the personality characteristics didn't fit me or anyone else I know."
