CollaGenius, a powerful blend of superfoods with potent mushroom extracts is a one-stop formula that supports brain power, immunity and skin, hair and nails.

In our review, you will learn everything about CollaGenius.

What is CollaGenius?

CollaGenius, a nutritional powder, is a powerful blend of superfoods and mushrooms.

CollaGenius is said to provide a variety of benefits. The supplement is said to promote heart health, brain health, energy, joint and muscle health, among other things.

The CollaGenius Formula was developed by BiOptimizers based on an "old supernutrient" that has shown to improve your brain's performance, increase focus, and double mental energy.

CollaGenius costs \$69 per bottle, and is backed by a money-back guarantee of 365 days. Within 365 days, you can ask for a full refund.

CollaGenius: Benefits

CollaGenius was designed by BiOptimizers to provide a wide range of physical and cognitive benefits. The combination of collagen and mushrooms extract provides your body with the ingredients needed to support everything from skin health to immune system.

[COLLAGENIUS SUPPLEMENT: OFFICIAL WEBSITE](#)

According to the official website, here are some benefits of taking CollaGenius every day:

- Increase alpha brain activity and unlock your creative potential

- Memory consolidation and working memory
- Protect your brain from stress and anxiety by strengthening it against the occasional occurrences.
- Increase brain derived Neurotrophic Factor (BDNF) to improve processing ability
- No crashes or jitters.
- Relax and calm yourself when faced with stressful situations
- The CollaGenius Formula can improve the skin, hair, and nails. Collagen is a connective protein that's abundant in the body. It is essential for the health of your skin, nails, and hair. Your collagen production decreases as you age. CollaGenius helps to replenish collagen for a variety of benefits.

What is CollaGenius?

CollaGenius is designed to rewire the brain in less than 30 days. It targets energy, focus and performance by using a natural blend of ingredients.

CollaGenius contains a variety of superfoods, including mushroom extracts, vitamins, minerals and nutrients derived from plants.

For centuries, mushrooms have been used in traditional medicine to promote health, well-being, immunity, energy and many other benefits. Modern studies have

shown that mushroom extracts contain natural plant-based chemicals which are linked to these and other benefits.

CollaGenius contains many ingredients that are designed to promote neurogenesis. CollaGenius protects the brain from aging by increasing levels of brain derived Neurotrophic Factor (BDNF).

CollaGenius Targets Neurogenesis & BDNF

CollaGenius targets neurogenesis or the formation new brain cells. CollaGenius works by targeting a chemical called BDNF in the brain.

BDNF levels are at their highest during childhood. BDNF stimulates the rapid development of your brain.

As you age, BDNF levels will naturally decrease. It's true that you can't "teach an old dog new skills" and that chess champions rarely live past their 30s. Your brain power will naturally decrease as you age.

What is BDNF?

The brain derived neurotrophic (BDNF), helps to grow new neurons in your brain. It is a protein that your nervous system and brain use.

BDNF helps to keep your brain healthy and resilient. It protects the brain cells (neurons), from oxidative stresses, environmental toxins, and other factors.

As you age, your BDNF levels will continue to decrease. These issues can be exacerbated by lifestyle and diet factors. Mercury in seafood, or low blood sugar can speed up brain decline.

BiOptimizers, a company that specializes in natural products, has developed a range of ingredients to support BDNF. This will help you maintain high BDNF levels and optimum mental performance, regardless of your age.

CollaGenius Ingredients

CollaGenius is a combination of mushroom extracts and herbs. It also contains plants and other ingredients that are linked to cognitive health and brain health.

CollaGenius contains a number of ingredients that work together to create the product.

Powerful Mushroom No. 1: Lion's Mane Mushroom

CollaGenius is a mushroom extract containing a 50 to 1 concentration of the lion's-mane mushroom. You can use CollaGenius instead of eating tubs full of mushrooms.

Each serving contains a concentrated dose of lion's mane powder.

Matt Gallant, co-founder at BiOptimizers claims to have used lion's horn mushroom for nearly a decade. He describes the ingredient as the "foundation" of his brain health . He adds 5g lion's mushroom extract to his coffee or smoothies in order to boost brain health.

Matt and BiOptimizers claim that the lion's mane mushroom in CollaGenius increases nerve growth factor (NGF), and BDNF, in the hippocampus. These effects also compound with time. Numerous studies have shown that lion's-mane mushrooms can improve cognitive function as you age.

[COLLAGENIUS SUPPLEMENT: OFFICIAL WEBSITE](#)

Here is how BiOptimizers describes lion's-mane mushroom extract's effects on your brain.

"... Lion's Mane activates important brain receptors – like muscles activating when you exercise... The BDNF is then "activated" to regain its full potency."

Some studies have also shown that lion's-mane mushroom extract may help to produce alpha brainwaves, especially

when combined CollaGenius with other nutrients. Alpha brain waves also increase empathy and open the heart.

Powerful Mushroom #2: Reishi Mushroom

The powder of the reishi mushrooms is also 100:1 concentrated in Powerful Mushrooms. Powerful Mushroom's second active ingredient has been used for centuries in traditional medicine, including traditional Chinese medicine.

According to BiOptimizers, today many people are taking reishi mushrooms to "Feel more Grounded". Reishi mushroom has also been used in Chinese medicine to build "jing" which is the deep energy that is at the core of our bodies and determines our ultimate health.

Reishi mushroom extract has many other benefits.

- Boosting and supporting a stressed-out immune system
- Improve energy levels and fatigue symptoms dramatically
- Increase your energy levels and improve your mood.
- The founders BiOptimizers say they regularly used reishi extract before adding it into the CollaGenius formulation. They claim it makes them calmer, more grounded and improves sleep.

Cordyceps is the third mushroom in our Powerful Mushroom series.

Cordyceps is a powerful mushroom extract that boosts energy and libido. It is said to have significant effects on brain power, cognitive and physical energy.

Cordyceps has many specific health benefits.

- Oxygen consumption increases, particularly during exercise
- Memory Enhancement
- Enhance sexual function
- Stress-induced fatigue can be reduced.
- Powerful Mushroom #4: Chaga Mushroom
- The use of the Chaga mushroom in traditional medicine is long-standing. It can be used to treat inflammation, improve physical energy and cognition.

The benefits of Chaga mushrooms include:

- Increase white blood cell activity to reduce inflammation and improve antibacterial and viral properties
- Memory loss and other cognitive functions can be helped.
- Increase brain function and learning speed

Collagen

CollaGenius also contains a large amount of collagen, as the name suggests. Collagen is the largest connective protein found in the body. It plays an important role in skin health, brain health, muscle growth, nerve function and much more.

There is a good reason why collagen protein supplements are so popular in recent months. collagen has a number of powerful antiaging benefits. But collagen's effects on cognition have also been studied extensively. Growing research shows how important it is to support brain health and activity.

Breakthrough Ingredients

DELIVERED IN A DELICIOUS DRINK

Exceptional Taste without Compromise

CollaGenius Salted Caramel offers a delightful taste reminiscent of a fall day, ensuring a pleasant experience without the earthy, mushroom-like flavor.

According to BiOptimizers, collagen may support cognition.

- Collagen can help improve brain structure and cognitive functions, according to studies
- Collagen is also shown to play a role in brain repair.
- According to BiOptimizers, collagen is the best food to combine with mushrooms. It creates a "double punch" for brain regeneration.
- CollaGenius, a combination of mushroom and collagen, allows you to enjoy superhuman mental performance with multiple proven ingredients.
- CollaGenius, which uses five of the highest quality ingredients, aims to provide immunity, cognition and physical performance benefits.

Scientific Evidence for CollaGenius

BiOptimizers' CollaGenius uses five ingredients with a scientific basis in transparent, high dosages. The company also lists dozens of peer reviewed studies to support the benefits listed on its CollaGenius site. Below, we'll examine some of the evidence to confirm CollaGenius's science and its workings.

Researchers found that taking a supplement of collagen over a three-month period had significant benefits in reducing pain. Researchers administered collagen or a

dummy pill to 60 patients with active, severe rheumatoid arthritis. They noticed that the swelling of joints and pain decreased significantly.

In a more recent collagen study , published in Nutrition in 2019,, collagen protein supplementation was found to lead to significant improvements in hydration of the skin, elasticity, roughness and density. The skin health of 72 women over 35 years old improved significantly after taking 2.5g collagen peptides every day for 12 weeks.

All four mushroom extracts found in CollaGenius are linked to powerful health benefits including:

Lion's mane is a plant that has been shown to aid in the synthesis of nerve growth factors (NGFs) by nerve cells. This could improve brain health and cognitive function.

Cordyceps. was shown to have potent anticancer and antioxidant effects.

Reishi has many natural chemicals that are linked to wellness, health, anticancer, anti-inflammatory, hepatoprotective effects (liver protective effects), and more.

Chaga has shown anticancer properties and many other benefits. It is used in Chinese traditional medicine for thousands of years.

CollaGenius is a combination of ingredients that have been proven to provide a variety of benefits. BiOptimizers has validated these benefits through placebo-controlled studies published in peer reviewed journals, proving the ingredients are as advertised and produce their intended effects.
