Java Burn FAQs

How do I use Java Burn?

Mix one packet of Java Burn with your morning coffee to get the best results. It is tasteless and dissolves quickly. It works with coffee to support your health and boost your metabolism throughout the day. Java Burn can be taken at any time, not just with coffee in the morning.

Java Burn is it safe to use?

Java Burn is safe and 100% natural. The product is made in the USA, in a GMP-certified and FDA-approved facility, under strict and sterile standards. The formula is gluten-free and non-GMO. No side effects have been reported by thousands of users. It is recommended that you consult your doctor if there are any existing medical conditions before beginning Java Burn.

Is Java Burn harmful to my coffee?

Java Burn will not change the taste of coffee. It has no taste and disintegrates instantly in any coffee. Java Burn works without changing the taste of your coffee, no matter how you prepare it or what you put in it.

How long does it take to ship Java Burn?

Java Burn ships directly to you at home or in the office using premium carriers such as FedEx and UPS. Orders in the US and Canada are usually delivered within 5 to 7 days. Orders from outside the US can take up to 15 days, plus time for customs clearance. You can also choose expedited shipping for faster delivery.

Does Java Burn come with a money back guarantee?

Java Burn offers a 60-day money-back guarantee, with no questions asked. If you are unsatisfied with the product, your results, or your experience, you can simply contact their support team at support@javaburn.com. If you return the product within 48 hours, the full amount will be refunded to you. This includes empty pouches. Java Burn can be a safe investment in your health.
