Doctor G's Best Brain Cognitive Support Ingredients

Doctor G's Best Brain Cognitive Support ingredients include 100% pure, natural, and FDA-approved ingredients sourced from organic. The main ingredients in Doctor G's Best Brain Cognitive Support include Phosphatidylserine, Bacopa Monnieri, Huperzia Serrata, Vinpocetine, Ginkgo Biloba, Oat Straw, L-Leucine, L-Theanine, and Vitamin B6.

Doctor G's Best Brain Cognitive Support Ingredients List

Vinpocetine

Vinpocetine is a part of the Periwinkle plant. It is widely used in Eastern Europe and Asia as a treatment for cerebrovascular problems and memory impairments due to age.

Ginkgo Biloba Powder (Leaf)

The compounds in Ginkgo Biloba are antioxidants. This means that they could support all-around health, and may even improve the flow of blood to the brain, while also enhancing the protection of nerves.

Phosphatidylserine 20% (Helianthus Annuus) (Sunflower)

The essential phospholipid is found within the brain cell membranes. PS enhances cell communication and helps help focus and memory, and regulates cortisol levels in times of stress.

Bacopa Monnieri Powder (Whole Herb)

Bacopa is an annual plant that has been shown to improve nerve signal reception by encouraging the growth of parts of neurons that are able to receive signals coming from nerves of other types.

Huperzine A 1% (Huperzia Serrata) (Whole Herb)

Huperzia Serrata can be described as a kind of clubmoss, which has the compound Huperzine A. It's been discovered to boost the levels of the chemical called 'messenger chemical' Acetylcholine to transmit messages throughout the brain.

Oat Straw Powder (Avena Sativa)

The extract of oat straws is a potent all-natural nootropic that has a unique capacity to improve the ability to concentrate and increase cognition.

L-Leucine

L-Leucine could help control blood sugar levels in the brain.

L-Theanine

L-theanine has the potential to promote concentration and arousal.

Vitamin B6 (as Pyridoxine Hydrochloride)

Vitamin B6 assists in the creation of neurotransmitters, which are vital chemical messengers within the brain. It also regulates the use of energy in the brain.
