BPH is characterized by swelling and pain in the prostate gland.

The majority of men seek medical intervention to solve the problem. What if it wasn't needed? What if the

prostate could be restored to health and function without drugs?

ProstateFlux: The key to better prostate health

You need to find a way to improve your prostate health without relying on prescription drugs. ProstateFlux is a clinically-proven formula that protects the prostate against infection and prostatitis, while reducing inflammation of the prostate gland which leads to benign prostate hyperplasia.

ProstateFlux, a natural formula, reduces inflammation and swelling of the prostate gland. It helps in the recovery process from BPH. ProstateFlux has helped thousands of men reduce their PSA levels.

After a few weeks, your PSA count will return to normal. ProstateFlux provides relief from the pain and discomfort of your condition, and is a natural method to restore normal prostate function and volume without using drug therapies.

What are the Prostate-Health-Enhancing Ingredients in ProstateFlux?

ProstateFlux, a proprietary blend consisting of 14 natural ingredients, is designed to positively impact prostate health. This supplement relieves swelling and discomfort in the prostate with plant-based nutrition, while promoting gland health.

Ginseng

Ginsenosides are beneficial components of this natural ingredient. These antioxidants promote prostate health by lowering PSA levels.

Ginkgo Biloba

This natural energy tonic contains powerful antioxidants that help detoxify the body, and protect the prostate. It protects the urethra and urinary tract from infection by improving the health of your urinary system.

Vitamin E

According to the NIH this powerful antioxidant flushes toxins out of the prostate, improves the tissue quality, and reduces inflammation, which leads to BPH or prostatitis.

Vitamin B3

Mayo Clinic: A vital vitamin can improve feelings of vitality and well-being.

It is used to convert food into energy. It keeps your skin, nervous system and digestive system healthy ".

Tribulus Terrestris

Clinically, this natural testosterone booster has been shown to increase T levels and decrease DHT. You will experience an improved mood, increased mental clarity, and leaner muscle mass. In a 2017 study, it was reported that "After the 12-week period of treatment, TT showed significant improvements in sexual function compared to placebo among men with mild-to-moderate ED." TT is generally well tolerated as a treatment for ED. "

Oat straw

This ingredient improves sleep and strengthens the muscles and skeletal system. Its detoxifying effects cleanse the body of toxins that can cause prostate inflammation.

Hawthorn

It is rich in powerful antioxidants which eliminate the free radicals responsible for aging signs and prostate problems. Hawthorn flushes out these inflammatory particles before they cause cell oxidation or death.

Muir Puama

According to UTEP this adaptogen increases vitality and cleanses your body and mind of mental stress.

Moonwort

This adaptogen helps to reduce the effects of stress on both the mind and body. It helps detoxify tissues and remove toxins from the human body.

What are the Benefits of ProstateFlux?

Take two capsules with your breakfast in the morning to experience the full benefits of ProstateFlux. When your metabolism is high in the morning, the body can efficiently transport nutrients to the prostate.

ProstateFlux takes four to six weeks for its full effects to be felt. In the first two to four weeks, most men will notice a decrease in pain and swelling caused by BPH. This effect increases as nutrients are absorbed into the tissues.

ProstateFlux increases hormone production by reducing DHT, and increasing testosterone. Improved blood flow will reduce swelling and pain in the prostate gland.
