## How Pharaoh Power Works

Pharaoh Power will increase your testosterone production. The key male hormone, Testosterone, is what makes a guy a real man. It controls libido and other factors such as energy, stamina and sexual health. Low testosterone levels have been directly linked to low sexual performance, low energy, weight gain and anxiety. It is therefore essential to boost your testosterone levels in order to reverse the effects.

Pharaoh Power is a herbal supplement that contains several extracts of herbs which boost testosterone levels. These ingredients inhibit aromatase enzyme, which converts testosterone into estrogen. These ingredients also block enzymes which cause testosterone to be bound with another hormone called SHBG. These two mechanisms combined can boost testosterone levels significantly.

Pharaoh power also helps improve the quality and strength of erections by increasing blood circulation to the penis. Four herbal extracts have been proven to increase blood flow. They do this by increasing the production of nitric dioxide and inhibiting enzymes which cause vasoconstriction.

Pharaoh Power also contains other ingredients that help improve the smooth muscle function. This relaxes the muscles and allows for better blood circulation. After using Pharaoh power for a few short weeks, you will no longer have any problems achieving and maintaining an erection.

Pharaoh Power also contains some herbal extracts which act as natural aphrodisiacs. These ingredients have a positive impact on the brain chemicals and hormones that control your sexual drive. You'll crave sex and be more engaged in sexual activity.

Pharaoh Power is different from other male enhancement products because it uses all of these methods. You'll start to crave sex within weeks. Your partner will also enjoy sex as much as you do.

### How long does it take to see results?

Pharaoh Power, a powerful male vitality product, is not a magic pill. You won't see results overnight.

Many men report that they have noticed a change in their energy and libido in just two weeks. Results can vary, just like with any supplement. How quickly you see the results of this product may depend on your diet, exercise habits and hormone levels.

The manufacturer claims that the best results are achieved after 30-60 days of using the product. You may want to try the product for this period of time before deciding whether Pharaoh Power will be the best male enhancement supplement.

You may see some results immediately, but it is best to give the product 30 days to allow your body to make improvements in your energy, stamina and testosterone levels.

## Pharaoh Power Ingredients

Pharaoh Power is a male enhancement product that uses only natural ingredients. It does not contain any drug ingredients such as Viagra or Cialis.

*This product contains nine natural ingredients, including:*

**Magnesium:** This mineral is important for more than 300 biochemical reactions. Magnesium seems to reduce the amount of SHBG, which in turn lowers the free testosterone levels. Magnesium also plays a vital role in energy production, smooth-muscle function, libido and many other things.

**ZINC:** zinc is one of the most essential minerals for male reproductive function and health. Zinc is required to maintain sperm mobility and sperm volum. Zinc also helps increase free testosterone by releasing more luteinizing hormonal. Zinc is also needed for energy, stamina and libido.

**Tribulus:** Tribulus terrestris, a natural aphrodisiac, helps to boost male libido. It also enhances sexual satisfaction. It appears to also help men produce testosterone, the hormone that is essential for sexual desire and performance. There is some evidence that tribulus may also help prevent the hardening of blood vessels and blood flow problems.

**Chrysin:** A flavonoid, chrysin can be found in propolis and bee pollen. According to studies, chrysin inhibits the aromatase, which can limit estrogen levels for men. In animal experiments, chrysin has been shown to reduce depressive behaviors,

possibly increasing sexual desire. In other animal studies, chrysin was found to improve sperm movements and concentration.

**Horny Goatweed:** For centuries, the Horny Goat weed was used to stimulate sex desire. It also inhibits an enzyme called PDE5 which inhibits dilation of arteries in penis. Horny goat weed improves blood flow, making it easier to achieve and maintain an erection.

**Tongkat ali:** Tongkat ali has been known to increase testosterone production in men. It appears to also target oxidative stresses in the smooth muscles, increasing blood flow and producing nitric oxygen. It increases your ability to stay and get hard. Tongkat ali has been shown to increase orgasm intensity and improve libido in men.

**Saw Palmetto:** Saw Palmetto has been used to promote prostate health and is also essential for male reproductive health. It can also boost erectile response by increasing blood flow to your erectile tissue.

**Chinese Hawthorn:** Chinese hawthorn is used for centuries as a herbal remedy to treat digestive problems, heart issues and high bloodpressure. It acts as a vasodilator. This means it can relax constricted vessels and improve blood flow. It may also relieve anxiety which is often a cause of low performance and libido.

**Winged Treebine:** Winged treebine is an herb in the grape family, revered for it's medicinal properties. It helps remove

plaque and cholesterol from arteries that can block blood flow. Also, it is linked to improved blood sugar control, relief from allergies, and other benefits.

**Suggested Use:** Take two (2) capsules before bedtime.

**CAUTION/WARNING:** Do not exceed recommended dose. Not for use for those under the age of 18 or pregnant or nursing mothers. Consult with a physician prior to use especially if you are taking a medication or have a medical condition.

**Storage:** Store this product in a cool dry place below 30°C (86°F).

**KEEP OUT OF REACH OF CHILDREN. DO NOT USE IF SAFETY SEAL IS DAMAGED OR MISSING. STORE IN A COOL, DRY PLACE.**

What are the side effects of Pharaoh power?

Pharaoh Power has the best of both worlds: it is not only an effective male enhancement supplement, but it is also very safe. As of this writing, no one has reported any serious side effects from using this product.

This doesn't mean that you won't experience side effects. All supplements can cause side effects such as headaches, nausea or indigestion. Pharaoh Power is a supplement that's highly unlikely to cause any side effects.

Even though Pharaoh Power does not have major side effects, it may still be wrong for you. This product, for example, is only suitable for men who are otherwise healthy and over 18 years old. You should not use the product if your age is under 18.

The manufacturer also recommends that you consult your doctor if you have any serious medical conditions, such as high blood pressure.

Pharaoh Power, a natural supplement for male vitality, is incredibly safe and effective. If you are still unsure if this product is for you, the manufacturer suggests that you consult your doctor or other medical professionals before using it.
