Who is Maybell Nieves, Ph.D.?

On the internet, there are several natural health guidelines created by digital marketers, inexperience gurus, and health specialists with no professional qualifications. Yet, Home Doctor: Practical Medicine for Every Family was authored by an actual medical practitioner.

Dr. Maybell Nieves is the Chief Physician of Venezuela's Breast Pathology Unit. She is also the General Surgeon at the University of Caracas. Dr. Nieves studied in Milan, Italy, at the European Institute of Oncology.

Despite the economic downfall of Venezuela, Dr. Nieves continued to serve patients. Hospitals and pharmacies ran out of medication, supplies, power, and running water, but Dr. Nieves was still able to cure patients using home remedies.

Dr. Nieves was the originator of a number of these techniques. Currently, many of the techniques she created are studied internationally. Some are used in war zones, while others are utilized in regions with inadequate health infrastructure.

In Home Doctor: Practical Medicine for Every Household, Dr. Nieves intends to share her knowledge with the current world. The 304-page book is filled with Dr. Nieves' expertise, including solutions she has devised and tried on actual patients in Venezuela.

No power, modern medicine, freezers, phones, Internet, pharmacies, Walmart, or competent law enforcement: this is the calamity for which we are all preparing.

A century and a half ago, people endured terrible circumstances, treated significant medical issues, and were independent. Claude collaborated with Drs. Nieves and Alterio to disseminate these and other tactics throughout the globe.

In [Home Doctor](#), Claude attempts to bridge the gap between ancient and contemporary healing practices, enabling the reader to discover some of the most effective alternative therapies and healing tactics now accessible.
