

Consisting of 73 identifiable areas, our MLS spans across 18 primary counties in total. This makes it easy to narrow your search and pinpoint just the right neighborhood and listing. Each MLS area is clearly defined by recognizable boundaries, like the Colorado River or nearby roads and freeways. Listings are associated in the MLS with a two-character area ID. Check out the area IDs and the boundary descriptions to familiarize yourself with our service area, or download any of our area or region maps to visualize our turf.
