*“Got my PC® Insiders Report™
today in the mail...I LOVE IT!!!!”*

—Clorise

Welcome to Summer

Canadians, including Clorise, know something special is about to happen when a new PC® Insiders Report™ edition arrives. We wait so long for summer to come, but when those hot days finally start to stretch into one another, it's more than a season—it's a celebration. And there's no better way to make the most of it—every meal, every moment—than with this shiny new PC® Insiders Report™ summer edition, packed with loads of new products, recipes and entertaining ideas.

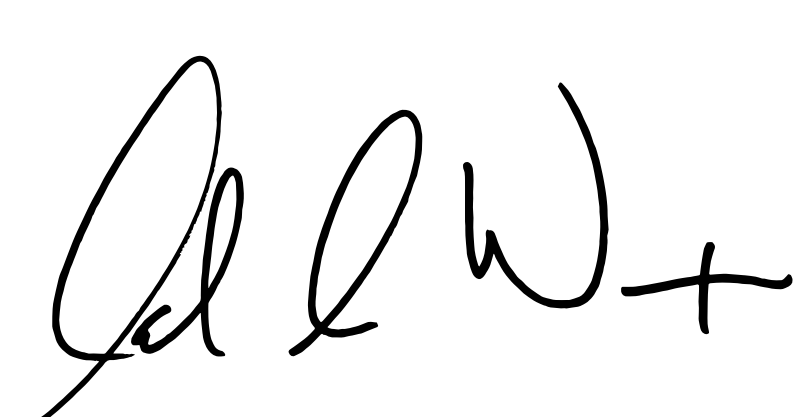

What I enjoy most as I flip through, though, are the stories behind the products. Our PC® Product Developers travel and test and never tire in their quest to make the very best, tastiest foods for you to discover, and they've really delivered this summer. Of course, I always have a few personal favourites, so let's get into them.

My family is a dessert family. To start off then, a treat so off-the-charts chocolatey, I'm fairly sure it will make your summer 500% better. Our new **PC® The Decadent® Double Chocolate Cream Pie** is cool, creamy and everything you expect a decadent dessert to be.

Next, our super delicious **PC® Maple Soy Cedar Plank Atlantic Salmon**. Naturally, our PC® Product Developers found a genius shortcut for this typically time-consuming meal. The fish comes glazed on a presoaked cedar plank. You just thaw it and grill it. How did they do it?! I predict this salmon will be a big hit this summer.

Last but not least is the one we're calling our official drink of summer. Pomegranate juice really cuts the sweet taste in our new **PC® Pomegranate Lemonade**, making it more of a tangy adult lemonade. I can't stop drinking this one.

Summer is finally here, and it's time to raise a glass and party. And when you discover the PC® products that make the season for you, I hope you'll tell me about them at #HeyPC.

GALEN WESTON JR.
President of Loblaw

Drinks

Raise a glass to our official drink of summer: **PC® Pomegranate Lemonade**

Sip it, slurp it or spike it. Whatever you need, our sweet-tart PC® Pomegranate Lemonade is here for you.

You can never have too many flavours of lemonade. Why, you ask? Because it's like a good friend, always there for you. On days when you wish you were on vacation but are just in your backyard, a glass of **PC® Jalapeno Lemonade** is there to spice things up. Feeling adventurous? Take your taste buds to Japan with the unforgettable **PC® Honey Yuzu Citrus Flavoured Lemonade**. And when it's 3 p.m. and the kids are hot and cranky, a pitcher of **PC® Peach Lemonade** can save the day (parents, we salute you for spiking your cup). So what flavour could we possibly add next?

Cue the newest wildly delicious member in our lemonade family: **PC® Pomegranate Lemonade**. It's our official drink of summer, giving you an explosion of taste that's just the right amount of sweet and tart, and 100% crushable. Pomegranates are native to the Mediterranean and prized for their flavour, aroma and deep ruby colour. We ran with those mouth-watering characteristics and believe we created the tastiest pomegranate lemonade on the market (in our humble opinion).

"The new PC® Pomegranate Lemonade will 100% quench your thirst with its tangy, sweet and refreshing flavour. Tastes like summer!"

—ANDREW SAMUELS & SHELLEY TOMPSON,
No Frills® Owners

The juice of real pomegranates is injected into our lively **PC® Original Lemonade**, which uses real lemon juice (no artificial flavours here). We think the result tastes like biting into a juicy pomegranate.

Our PC® Pomegranate Lemonade is, of course, perfect on its own, but our lemonades are made for mixing. It will brighten up any mocktail (we've got you, kids) or highball (we're all over how easy it is to make a tangy and modernized Tom Collins).

As your perfect hot weather companion, our new lemonade is meant to be savoured on the deck after a long day at work or paired with every grilled dish at your next party. Grab a few bottles, because whatever your summer may bring, a glass of PC® Pomegranate Lemonade is always the answer.

recipe

Pomegranate Lemonade Frosé

“This is the grown-up version of my favourite childhood summer drink,” says PC® Chef Amanda Barnier. It’s loaded with rosé wine and gets a sweet-tart punch from PC® Pomegranate Lemonade.

SERVES 8 PREP TIME 15 MINS READY IN 5 HRS, 15 MINS

1 750 mL bottle rosé wine (*alcoholic or non-alcoholic*)

2 tbsp whole green cardamom pods

½ cup simple syrup

4 cups PC® Pomegranate Lemonade, chilled

⅔ cup fresh or frozen pomegranate arils (*optional*)

fresh mint sprigs (*optional*)

1 Pour wine into 13 × 9-inch metal cake pan or glass baking dish. Freeze until flaky, 5 to 6 hours. (If using non-alcoholic wine, stir with a fork once or twice throughout to prevent it from freezing solid.)

2 Meanwhile, crush cardamom on cutting board using bottom of small saucepan until slightly cracked; scrape into saucepan. Heat over medium heat, stirring often, until fragrant, 1 to 2 minutes.

3 Add simple syrup to saucepan; bring to a simmer. Cover and cook for 3 minutes. Remove from heat; let stand, covered, until cooled to room temperature.

4 Break up wine into chunks using fork. Combine wine and lemonade in blender. Strain cardamom syrup through fine-mesh strainer into blender. Blend until slushy.

5 Divide among serving glasses. Garnish with pomegranate arils and mint (if using).

Barbecue

When the
sun hits that
caramelized
sweet-sticky
glaze...

Our new PC® Maple Soy Cedar Plank Atlantic Salmon is so easy, you can make it any time—it's its own special occasion

Cedar plank: We soaked it. Responsibly farmed salmon: We glazed it. Dinner: You just grill it.

Burnt sugar, overly smoky fish and a charred plank you didn't take enough time to soak: These are the images (and smells) that may come to mind when you think about making cedar plank salmon. Not super compelling. But when our PC® Product Developers think about this dish, they get really excited—and highly motivated. Finding just the right way to take the fussiness out of a dish like this is what they live for. Starting today, when you think about our new **PC® Maple Soy Cedar Plank Atlantic Salmon**, envision everything frozen in one pack, the plank presoaked, with perfectly marinated fish on top. Just thaw it and grill it. Can you imagine anything easier?

It requires no planning, and no special occasion is necessary. You can make it at the cottage, over a campfire or on any ordinary weeknight, because all of the prep work is done. We marinate a four-portion piece of ASC-certified Atlantic salmon in a lightly gingery, sticky, sweet-salty sauce made with real Canadian maple syrup and soy sauce. Then we seal it up and flash-freeze it on a presoaked cedar plank. It's easy to make and doesn't create a lot of mess.

You can cook your salmon in the oven or on the barbecue, but there's something about the whiff of cedar smoke when you open the grill. "Things start to change under that hood," says PC® Product Developer Jackie Dalimonte. "The marinade begins to caramelize and turn into a shiny glaze; the plank starts to darken and char, which creates a layer of smokiness. By the time it's done cooking, the salmon is just so moist."

Happy Tuesday.

8 PC® products that make a meze feast

You know when you set out a casual spread of snacks and appetizers in the middle of the day, and by the time the sun goes down you're still eating even though you are very full? Everything is just so satisfying, you can't stop—and won't stop. In true PC® style, we've not only made this type of feast easy, but we've made it irresistible with meze-inspired items. Meze means grazing, Middle Eastern-style, with small bites that are big on flavour, texture and colour. The best bit: All of these dishes require minimal (if any) prep and can be mixed and matched. Some can even be served right off the grill—just heat frozen spiced meatballs alongside fluffy flatbreads, spoon out the dips and dig in.

This summer has a new sauce: PC® Black Label Gold Barbecue Sauce

It will have you hooked after one tastes—and it's cheaper than a trip to South Carolina!

Ever sip barbecue sauce straight from the bottle? No? That's probably because we've been living in BGS days—before gold sauce, that is. Things are different now.

Confession: When we first tried PC® Black Label Gold Barbecue Sauce, we

wanted to smuggle it out of the PC® Test Kitchen under our notebooks. We didn't. But we wanted to. This tangy mustard-based sauce will make you do things you never thought you would—it's that good.

Our version may be new, but gold sauce has a history south of the border, where barbecue pits are a way of life. In Charleston, South Carolina, specifically, barbecue is bathed in its trademark, deeply beloved mustard-based sauce. The PC® twist is that we make ours in small batches in Canada from domestic and imported ingredients, like mustard seeds and apple cider vinegar. It's bold, with a brightness to balance the sweetness. It also has a slightly thinner consistency than red barbecue sauces, which is intentional. This makes it super versatile: You can use it to marinate, baste, finish or dip. It's tremendously good on pork, chicken, grilled vegetables or our creamy Hallooom. You might even sip it from the bottle. Don't say we didn't warn you.

recipe

Spiralized Hot Dogs with Gold Sauce Mayo

“You don’t make friends with salad,” says PC® Executive Chef Allison Jones. Her go-big-or-go-home attitude inspired her to make this fun recipe that you must try at your next barbecue.

We didn’t just spiralize the hot dogs so they look fancy. This trick makes nooks and crannies for the sauce and toppings to nestle into.

SERVES 6 PREP TIME 20 MINS READY IN 30 MINS

2 tbsp + ⅓ cup PC® Black Label Gold Barbecue Sauce, divided

⅓ cup mayonnaise

6 jumbo pork wieners

6 hot dog buns

ketchup, for topping (optional)

¼ cup thinly sliced red onion

potato chips, for topping (optional)

PC® Crispy Jalapeños or PC® Crispy Onions, for topping (optional)

1 Preheat barbecue to medium-high. Oil grill.

2 Stir 2 tbsp barbecue sauce with the mayonnaise in bowl. Set aside.

3 Insert 12-inch wooden skewer lengthwise all the way through 1 wiener. (If skewer sticks out the side of the wiener, remove skewer and try again.) Holding skewer handle, place wiener on cutting board. Using paring knife, cut into wiener at a slight angle until you hit the skewer; turn wiener and continue cutting and turning until you reach the other end (try to space out the cuts by about ½ inch). Remove skewer and transfer wiener to plate. Repeat with remaining wieners.

4 Brush wieners all over with remaining ⅓ cup barbecue sauce, making sure you get sauce in between spiral cuts. Grill on preheated barbecue, turning often, until charred, 6 to 8 minutes. Grill buns, turning once, until golden, about 2 minutes.

5 Squeeze ketchup (if using) into buns. Divide wieners among buns and top with mayonnaise mixture and red onion, dividing evenly. Sprinkle with potato chips and crispy jalapeños or onions (if using).

Join the veggie burger revolution with our **PC® Plant Based Chickpea & Sweet Potato Veggie Burger**

Ready to revolt against hard, dry and sad veggie burgers? Join us—we made one even meat eaters will love.

That hungry vegetarian at the barbecue. You know the one (you’ve maybe even been them)—eating that hard, dry burger with approximately 16 toppings to hide the bland taste.

Oh, and it just crumbled down your shirt after one bite. Can you go home now? But it doesn’t have to be like this. PC® has always had your back when it comes to plant-based foods, so we’re starting a revolution for better veggie burgers. Ones that taste like vegetables and will make everyone else at the barbecue jealous. Say hello to our **PC® Plant Based Chickpea & Sweet Potato Veggie Burger**.

Our new burger is made with real chickpeas and real sweet potatoes, and it doesn’t shy away from showing you what it’s got. Take a bite and you’ll see the delicious sweet potatoes and ground chickpeas seasoned with tomato powder, garlic powder and onion powder.

And now you have an equally delicious veggie option for the grill. Has a veggie burger ever tasted better? We think not.

Buy it for the incredible price and quality and keep it for the restaurant-style pizzas it bakes up fast—and the fact that you've never been more popular in the neighbourhood. If you don't fall in love at first crust, we'll refund you, guaranteed*.

Not convinced? You should also know this nifty oven is backed by a five-year warranty and is easy to use, compact and portable, with folding legs so you can take it—and excellent pizza—with you all summer long.

If you know our PC® Enameled Cast Iron cookware, you know how obsessed we are with making quality cooking gear accessible. We want the PC® Propane-Powered Pizza Oven to empower more people to become the pizza chefs they were meant to be, at our amazing price. Outdoor pizza theatre and chewy, cheesy pies are in your hands.

At that temperature, it only takes minutes to cook a pizza. In the interest of speed, you may want to turn your patio table into a pizza-making station. Because this is the new way to entertain.

MAKES TWO 8" PIZZAS **PREP TIME** 25 MINS **READY IN** 30 MINS

all-purpose flour, for dusting

½ pkg (560 g pkg) frozen PC® Italian Tipo “00” Flour Pizza Dough (one 280 g dough ball), thawed

4 tsp olive oil, divided

2 tsp za’atar spice blend, divided

⅓ cup diced Halloom cheese (¼-to ½-inch dice), divided

1 cup cherry tomatoes, cut into quarters, divided

½ cup lightly packed fresh cilantro, mint and/or parsley leaves, chopped

EQUIPMENT

PC® Propane-Powered Pizza Oven

PC® Pizza Peel

1 Preheat pizza oven on high heat, about 15 minutes, then reduce heat to medium-low. Dust pizza peel generously with flour; set aside.

2 Divide dough ball in half; using hands, gently stretch one half from underneath into 8-inch round, leaving thicker 1-inch border for crust. Transfer to prepared pizza peel. Gently shuffle peel from side to side to ensure dough slides easily on peel; if it sticks, carefully remove dough and dust peel with more flour.

3 Brush 2 tsp oil over surface of dough and sprinkle with 1 tsp za’atar, leaving border uncovered. Top with half each of the cheese then tomatoes.

4 Slide pizza off peel and onto stone in pizza oven. Bake, using peel to rotate pizza every 15 to 30 seconds, until crust is evenly golden and crisp, 2 to 4 minutes. Remove from oven by sliding onto peel.

5 Stretch out remaining half of dough and top with remaining oil, za’atar, cheese then tomatoes. Repeat step 4. Sprinkle pizzas with herbs, dividing evenly. Cut into strips. Serve immediately.

Charred Anaheims with Herbed Ricotta

This messy convergence of creamy, spicy, tangy and smoky flavours is your new summer salad. “It’s full of herbs and spice and zest,” says PC® Chef Carrie Rau.

SERVES 4 PREP TIME 15 MINS READY IN 30 MINS

1 pkg (170g) PC® Anaheim Hot Peppers

2 fennel bulbs or red onions (or 1 of each)

4 tsp olive oil, plus more for drizzling

¼ tsp + pinch each salt and black pepper, divided

1 cup smooth ricotta cheese

2 tsp grated lemon zest, plus fresh lemon juice, to taste, divided

3 tbsp chopped fresh basil, chives and/or parsley, divided

1 Preheat barbecue to medium. Oil grill.

2 Halve Anaheim peppers lengthwise; trim stems and scrape out seeds. Trim fennel stalks and fronds; halve bulbs lengthwise, then cut each half into 6 wedges (do not trim away core; this will hold the wedges together during grilling). If using red onions, trim off stem ends and remove skin, leaving root ends intact; halve onions lengthwise, then cut each half into 6 wedges.

3 Toss together Anaheim peppers, fennel and/or red onion, oil and ¼ tsp each salt and black pepper in large bowl. Grill on preheated barbecue, lid closed and turning occasionally, until softened and charred, 12 to 15 minutes.

4 Spread ricotta evenly over serving platter. Sprinkle with remaining pinch each salt and black pepper, the lemon zest and 2 tbsp of the herbs. Drizzle with oil, to taste. Arrange grilled vegetables overtop and sprinkle with remaining 1 tbsp herbs. Drizzle with lemon juice, to taste.

3 ways with PC® Grilled Ready Veggie Eggplant

The emoji gets all the love, but the veggie deserves some, too. That ends here.

Eggplant is an unloved summer vegetable. We get it—it's fussy to prepare and sometimes turns out mushy, so you'd rather not add it to your cart. Until now.

Our PC® Grilled Ready Veggie Eggplant comes sliced and already grilled, removing all the prep work.

It has a slightly smoky flavour and is ready to be added to whatever easy, breezy meal you're making.

TOSS A BETTER SALAD

Combine cooked PC® Grilled Ready Veggie Eggplant with drained rinsed canned chickpeas; halved cherry tomatoes; chopped bell pepper, cucumber and parsley; and PC® Turmeric Ginger Vinaigrette. Top with crumbled feta cheese and PC® Black Label Aleppo Pepper Seasoning, to taste.

MAKE A NO-FUSS GRAZING PLATTER

Arrange cooked PC® Grilled Ready Veggie Eggplant on a serving platter with sliced tomatoes, sliced jarred artichoke hearts, jarred roasted red peppers, sliced rounds of goat cheese, olives and capers. Drizzle the platter with olive oil and fresh lemon juice, and serve with warm baguette.

LOAD UP AN EPIC PITA

In a large bowl, mix ¼ cup mayonnaise with 2 tsp harissa spice blend; add one bag coleslaw mix and toss to coat. Layer in warm halved pitas with cooked PC® Grilled Ready Veggie Eggplant, sliced tomatoes, cooked PC® Kofta Beef Meatballs and fresh cilantro.

3 ways to chill out with PC® frozen treats

Cool, delicious desserts are on deck (maybe literally on your deck)! Fill your freezer with PC® Raspberry Hibiscus Flavoured Ice Pops and these other icy essentials.

The brain freeze needs a rebrand, and it starts here with these ice pops. What if, when you ate an icy treat a little too quickly or eagerly, the sensation that hit you was one of pure pleasure? Not an ouch but an oh-my-wooden-sticks-I've-never-tasted-anything-like-this moment of joy. Through extensive experimentation (us enthusiastically double-fisting ice pops in the PC® Test Kitchen), we have been able to prove this. Now it's your turn.

3 unexpected ways to top PC® Cream First™ Vanilla Ice Cream

Vanilla ice cream is like a white T-shirt—good on its own but better with accessories. To start, you need a really good pint. (You can't make magic with a poorly constructed tee, after all.) Please grab our **PC® Cream First™ Vanilla Ice Cream**, made with cream and vanilla beans (because that's how you do vanilla right). Then add the toppings—think mochi, hibiscus glaze or even a brioche bun. Because, when it comes to fashion, you gotta go big or go home.

THE MUST-HAVE TOPPER **PC® Hibiscus Glaze** **with White Condiment**

Stir together ½ cup each diced watermelon and diced peaches, and 1 tsp PC® Hibiscus Glaze with White Condiment. Spoon into serving bowl and add a scoop of PC® Cream First™ Vanilla Bean Ice Cream, sliced or diced peaches, and a piece of your favourite chocolate. Drizzle with more PC® Hibiscus Glaze with White Condiment.

THE COORDINATING SET **PC® Black Label** **Aleppo Pepper Seasoning** **+ mango + peanuts**

For a brioche ice cream sandwich, spoon a scoop of PC® Cream First™ Vanilla Bean Ice Cream into a toasted brioche bun and top with 2 tbsp diced mango, 1 tbsp each chopped peanuts and sweetened condensed milk, and 1 tsp each chopped crystallized ginger and chopped fresh mint. Sprinkle with a pinch of PC® Black Label Aleppo Pepper Seasoning.

THE SHOWSTOPPER **PC® Strawberry Mochi** **+ strawberries + chocolate**

Add a scoop of PC® Cream First™ Vanilla Bean Ice Cream to a serving bowl (or waffle bowl) and top with one PC® Strawberry Mochi and ½ cup sliced strawberries. Drizzle with melted chocolate (or chocolate sauce), and top with sprinkles and a fresh mint sprig.

Welcome to peak decadence:
cookie crumbs as part of the base,
milk chocolate filling and
whipped cream on top.

A pie to rule them all: PC® The Decadent® Double Chocolate Cream Pie

Chocolate cookie crumbs in the crust.
Real milk chocolate filling. And whipped cream to finish.
Did we just make our best pie ever?

There's a secret to making
your summer 500% better:
Add chocolate. Science
hasn't proven this theory
yet, but after decades of
product making, we know
it to be true. Take our

iconic PC® The Decadent®
Chocolate Chip Cookie,

which is stuffed with as
many chocolate chips as
we can get in the batter

without the cookie falling apart. Summer days are
just better when you use these treats to make s'mores
or ice cream sandwiches. So why hadn't we used our
chocolate logic to make a truly decadent, over-the-top
summer dessert? Our sincerest apologies for denying
you this chocolatey creation for so long.

But now, give us a drum roll and break out your
happy dance, because our PC® The Decadent® Double
Chocolate Cream Pie is here. To start, we pressed
chocolate cookie crumbs to form the base of the crust.
We topped it with a silky milk chocolate filling you
can't stop eating. Then we crowned the whole thing
with dollops of real whipped cream for a grand finale.
Sorry, we just need a minute to drool.

The secret to this extra-indulgent pie? The chocolate,
obviously.

"I distinctly remember the first time I tried this
pie and I knew it was 'the one,'" says Aneta Rybak,
the PC® Product Developer behind this pie. "It had
everything I love in a dessert—the rich deliciousness
of quality chocolate and contrasting textures and
flavours. I wasn't going to eat more, but I went back for
a whole slice. I just couldn't help myself."

Yep, that milk chocolate and cream filling isn't just
100% decadent—it's 100% irresistible.

And it takes everything you love about PC® The
Decadent® products (hello, indulgence) and removes
everything you don't love about making homemade
pie (buh-bye, four hours stuck in the kitchen).

*"My husband and I love to entertain in the summer.
Our friends and family always look forward to
us introducing them to the newest PC® Insiders items.
Last year it was the PC® Yuzu Citrus Japanese-Style
Cheesecake, and this year we can't wait to treat our
guests to this pie. Indulgent is an understatement."*

So how good is it? Well, if you're a fan of our beloved
PC® Key Lime Pie, PC® Yuzu Citrus Japanese-Style
Cheesecake and PC® Coconut Cream Pie, then you
already know a PC® dessert is the summer VIP. And
when you serve our PC® The Decadent® Double
Chocolate Cream Pie at your next gathering, it's all
anyone will talk about (and all you had to do was
pull it out of the freezer and defrost).

And just like that, summer got 500% better.

On The Cover

With over 100 new products in our collection, how could we possibly pick a cover star? One bite of our **PC® Raspberry Hibiscus Flavoured Ice Pops**, and the decision was made! Bold, fun and refreshing, they're exactly what summer should be. Then Québécois illustrator Camille Charbonneau (with a few cuddly sidekicks napping at her side) got to work on bringing the cover to life during the cold days of winter. Her inspiration? Warmth, sunshine and all the good times ahead. Her energetic and playful design is a wish list of everything we hope your summer delivers. So, add a few boxes of PC® Raspberry Hibiscus Flavoured Ice Pops to your cart and please invite us to the tasting party.
