

SSE CHOICE

SHIELD YOURSELF FROM MARKET FLUCTUATIONS

SSE Choice gives you the comfort and confidence of knowing the price of your gas or electricity is fixed. This helps shield your business from wholesale market fluctuations.

Green electricity

Your SSE Choice electricity contract includes 100% renewable energy, from our own UK wind farms and hydro power stations¹

SSE Green Gas

options available

HOW SSE CHOICE HELPS YOU

- Energy price certainty for the duration of your contract means you can budget better.
- Contracts can be offered up to five years, giving you peace of mind for a longer period of time.
- With the comfort of knowing your energy price is secure, you can dedicate more time to your core business.
- We also do all we can to shelter you from non-commodity cost fluctuations.
- Green electricity helps your business towards net zero.

WANT TO KNOW MORE ABOUT SSE CHOICE?

With SSE Choice, your energy price is fixed at the start of your contract, no matter what. And our highly experienced team of energy experts will aim to keep your non-commodity costs stable.

Non-commodity costs are based on our forecast and our experienced team strive to make accurate predictions. These costs include environmental levies and transporting electricity through the different networks.

This contract is available for up to five years and while we do everything we can to keep these costs secure, this product does allow for some fluctuation. If the non-commodity costs are higher than we have forecasted, there may be an increase to the price you pay.

SSE CHOICE ELECTRICITY IS 100% RENEWABLE

- Reduce your carbon footprint with green electricity from SSE's UK wind and hydro assets.¹
- Show your commitment to sustainability with SSE Green Electricity logo and certificate.
- Certified 100% renewable backed by Renewable Energy Guarantees of Origin (REGOs).
- Easy to report zero carbon emissions for electricity with independent verification by EcoAct, an Atos company.

WHAT COSTS ARE INCLUDED?

The electricity and gas commodity element will be fully fixed for the duration of your SSE Choice contract. The following non-commodity costs are based on our forecast and may vary.*

ELECTRICITY

- Transmission Networks & Distribution Use of System charges (TNUoS and DUoS)
- Balancing Services Use of System charges (BSUoS)
- Assistance for Areas with Higher Electricity Distribution Costs (AAHEDC)
- Renewables Obligation (RO)
- Contracts for Difference (CfD)
- Capacity Mechanism (CM)
- Feed in Tariff (FiT)
- Existing metering configuration

GAS

- Existing metering configuration
- Transportation charges
- Unidentified gas

FOR A BETTER WORLD OF ENERGY

info@sseenergysolutions.co.uk || 0800 389 4466 || sseenergysolutions.co.uk

¹All our renewable electricity is sourced from wind and hydro assets wholly or partly owned by SSE Renewables, our sister company in the SSE Group. You'll continue to get your electricity through the national grid as normal, and we'll match your consumption to Renewable Energy Guarantees of Origin (REGOs) from the SSE Group's generating assets.

*Please note: while we do everything we can to avoid any extra costs or changes occurring, and everything on the list above is based on our forecast, price changes can happen outside our control, and we reserve the right to pass that cost on to you.

All SSE Energy Solutions products are offered in accordance with our applicable Terms and Conditions and subject to availability. SSE Energy Solutions is a trading name of SSE Energy Supply Limited, registered in England and Wales number 03757502, which is a member of the SSE Group. The registered office of SSE Energy Supply Limited is No. 1 Forbury Place, 43 Forbury Road, Reading, RG1 3JH.
