# WHAT DO WE CHARGE FOR?

- Labor (think mechanic)
- Material (think parts)
- Example: How do I charge for a administering a patient Toradol 60mg IM?

- Toradol 15mg X 4
- Ther Proph/Dx Inj, Subq/IM

## STEPS

1. Select Patient
2. Select “Charges”
3. Confirm “Urgent Care” View
4. Select “Med SQ/IM”
5. Select “Ketorolac 15mg” x 4”
6. Select “Ther Proph/Dx, Subq/IM”

The screenshot displays the RGST, STAR Procedure Charge Selector interface. The interface is divided into several sections: a left sidebar with navigation options, a top header with patient information, a main content area for selecting charges, and a bottom section for the final charge list.

**Step 1:** Select Patient. The patient information at the top shows: RGST, STAR, EnMRN: 4924721, Sex: F, DOB: 07/31/1990, SHC: 108-107-338, H Phone: (619)585-4000, Age: 30 Years, Other: SHARP, REES-STEALY, PCP: SHARP, REES-STEALY, Pri Ins: SHARP, REES-STEALY, Security: No Restricted Data, FYI: FYI, ACO: ACO.

**Step 2:** Select “Charges”. The left sidebar shows the “Charges” option selected.

**Step 3:** Confirm “Urgent Care” View. The “View” dropdown in the main content area is set to “Urgent Care”.

**Step 4:** Select “Med SQ/IM”. The “Med SQ/IM” option is selected in the left sidebar.

**Step 5:** Select “Ketorolac 15mg” x 4”. The “Ketorolac 15mg” option is selected in the main content area.

**Step 6:** Select “Ther Proph/Dx, Subq/IM”. The “Ther Proph/Dx, Subq/IM” option is selected in the main content area.

The bottom section shows the final charge list:

CPT Code®	Modifier	Units	Procedure Charge
96372		4	Ther Proph/Dx Inj, Subq/IM
J1885		1	RX Ketorolac Trometha, 15mg

Buttons at the bottom include: Charge Details..., Covered Diagnoses..., and Remove Charge.

# WHAT DO WE CHARGE FOR?

- Example: How do I charge for a administering Tdap to a 60 year old man?

- Tdap (adacel) 7 years or older
- Ther Proph/Dx Inj, Subq/IM

## ■ STEPS

1. Select Patient
2. Select “Charges”
3. Confirm “Urgent Care” View
4. Select “Vaccines”
5. Select “Tdap, Yr or Older” x 1
6. Select “Ther Proph/Dx, Subq/IM”

The screenshot shows the UC Clinical Charges interface. The top navigation bar includes 'Charges', 'Counter Form', 'Diagnosis', 'Visit Charges', 'Procedure Charges', and 'Manage My Groups'. The patient information section displays 'RGST, STAR' with details like EnMRN, Sex, DOB, SHC, H Phone, Age, Other, PCP, Pri Ins, Security, FYI, and ACO. The 'Procedure Charge Select' section is active, showing a list of procedures. The 'Vaccines' category is selected in the left sidebar. The 'Urgent Care' view is confirmed. The 'Modifier Group' section lists various modifiers. The bottom table shows the selected charges: CPT Code 90715 (Tdap, 7 Yr or Older) and 96372 (Ther Proph/Dx Inj, Subq/IM).

CPT Code®	Modifier	Units	Procedure Charge
90715		1.0	Tdap, 7 Yr or Older
96372		1	Ther Proph/Dx Inj, Subq/IM

# WHAT DO WE CHARGE FOR?

- Example: How do I charge for a venipuncture only?

## STEPS

1. Select “Lab Tests” on Charges Screen
2. Select “Collection of Venous Blood by Venipuncture”

You only charge for the procedure; the supplies are included in the visit charge for venipuncture.

## WHAT DO WE CHARGE FOR?

- Example: A patient has picked up Lovenox from the SRS pharmacy and presented to UC for administration. After being seen by the provider, the UC nurse provides education on how to administer and administers the Lovenox. How do we charge?

## STEPS

1. Select “Med SQ IM” on Charges Screen
2. Select “Ther Proph/DX Inj, Subq/IM”
3. Select the last “Page”
4. Select “Retail RX Supply”

We do not charge for the drug because the patient already paid for the drug when they picked it up from the pharmacy.

Documentation must include that patient brought their own medication.

## IV CHARGES IN URGENT CARE

- Charge for “1” initial service only
- Initial service is based on primary reason for the visit:
  - Hydration
  - Therapeutic Infusion (31 min or greater)
  - Therapeutic Injection, IV push
- Initial service bundles the cost of starting the IV, saline lock supplies, and IV tubing.
- Charge for prepackaged fluids for hydration.
- Don't charge for fluids used to facilitate drug administration.

# IV CHARGES

## HYDRATION CHARGES

CODE	TW NAME / DESCRIPTION	EXPLANATION	Example
96360	IV Infusion Hydration, <b>Initial</b> 31 minutes – 1 hour	<i>Initial</i> hydration lasting 31-60 minutes	1 <sup>st</sup> bag of NS infused over 1 hr
96361	IV Infusion Hydration, <b>Ea Addtl'</b> hr	Each <i>subsequent</i> hour of IV hydration. (Begin charging after patient has received at least 1.5 hours total of IV therapy)	2 <sup>nd</sup> bag of NS infused over 1 hr  (If pt only received a total of 1hr and 15 minutes of IV infusion, only charge for 1 <sup>st</sup> hr)

## IV Infusion Therapy CHARGES

CODE	TW NAME / DESCRIPTION	EXPLANATION	Example
96365	IV Infusion Therapy, <b>Initial</b> to 1 Hour	<i>Initial</i> prophylactic or diagnostic IV therapy	1 <sup>st</sup> IV given was Cipro
96366	IV Infusion Therapy, <b>Each Addt'l</b> hr	Concurrent therapeutic infusion (given at the <i>same time</i> , same site, but separate lumen)  (Begin charging after patient has received at least 1.5 hours total of IV therapy)	Cipro hung at the <i>same time</i> (piggy backed) as initial hydration therapy (NS)
96367	IV Infusion Therapy, <b>Addt'l Sequential</b> Infusion to 1 Hour	Additional <i>sequential new therapeutic infusion</i> (same site)	Infusion of Levaquin <i>after</i> Cipro completed

## IV Push Charges

CODE	TW NAME / DESCRIPTION	EXPLANATION	Example
96374	Ther / Proph / Dx Inj, IV Push Single / <b>Initial</b> Subq.	<i>Initial</i> IV push drug of 15 minutes or less	Morphine Sulfate was first IV push drug given
96375	Therap Proph / Dx Inj, Ea Addt'l Seq IV Push New Subs Drug	<i>Additional sequential</i> new drug, 15 minutes or less (subsequent IV pushes)	Zofran was given IVP after initial Morphine above

## LETS PRACTICE!

- A patient receives NS 1000 mL @ 500 mL per hour
- Select “IV Infusion hydration”, Int (this covers the 1<sup>st</sup> hour of hydration)
- Select “IV Infusion hydration, Ea Addt'l HR”
- Select “RX Infsn, Normal Saline Sol, 1000”

## ANTIBIOTICS ADMINISTERED MULTIPLE TIMES IN A DAY TO THE SAME PATIENT

- Patient will typically be seen by the provider ONLY during first visit.
- Provider will place orders for all visits for the day during the first visit.
- UC RN inputs all charges on the first visit charge ticket.
- Subsequent visits require a UC Nurse Visit only and the diagnosis.

Centricity® Framework - Microsoft Explorer provided by SHARP HealthCare Default

UCClinical

**Step 7:** Enter diagnosis code (same code as first visit of the day). If unsure, ask the provider.

**Step 8:** Click "ENTER" or "Go"

Primary	#	ICD-9	ICD-10	Diagnosis
Yes	1	879.8	W54.0XXA	Dog bite

■ Nurse Only Visits Continued....

**Step 9: Go back to the “Encounter Form” tab. Ensure there is a green smiley face by the “UC Nurse Visit” charge.**

## Step 9

### Step 10

### Step 11: Change “Status” on tracking board to “Complete”

## ANTIBIOTICS ADMINISTERED MULTIPLE TIMES IN A DAY TO THE SAME PATIENT

- How do I charge for a patient who is seen in Urgent Care 3 times on the same day for administration of Unasyn (ampicillin/sulbactam) 3 grams over 31 minutes?
- The patient will be seen 3 separate times and therefore requires 3 separation “Initial” charges.
- The second and third visits require a modifier to indicate the patient is seen multiple times in a day (the modified visit charges are billed at a lower rate than the first visit)

### CHARGES:

- IV Infusion Ther, Init
- IV Infusion Ther, Initial to 1 hour – 59
- IV Infusion Ther, Initial to 1 hour – 59
- Ampicillin/sulbactam 1.5 gram X 6

# FINAL NOTES ABOUT CHARGES.....

## CODE BLUE

Send code blue form to SRS UC Support:      Scan → Email → SRS UC Support

Interoffice → SRS UC Admin → SRS Copley They will pull the charges from the code blue form.

## OTHER REMINDERS

- Verify all CLIA waived testing has been charged for (e.g. – POC HCG, FLU, etc.)
- Ensure that all completed nursing orders have been charged for
- Please do not tell patients (i.e. – cash patients) that the estimate you are presenting to them is their final bill.
  - In some instances, the patient / their insurance company may receive additional charges if further tests are needed which are dependent upon today's test.
  - Examples that may result in additional charges are certain labs and x-ray tests
