

Smoking Status & Immunization History

How to add new smoking status for patients 13 years and older:

Ask every patient every time

You only have to document their smoking status **once every two years**

If the smoking status changes, **document the change** (see instructions below)

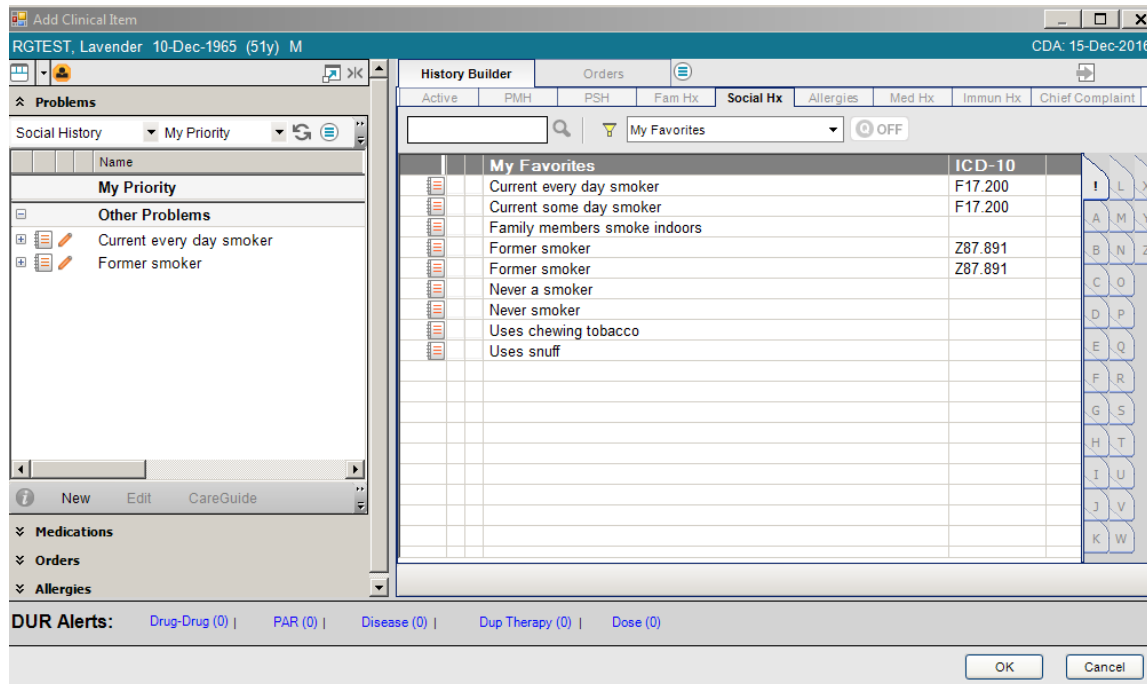

6 Easy Steps!

1. From the **Chart**
2. Go to the **Problem** tab, select the **New** button

Smoking Status & Immunization History

What to do if the smoking status is up to date:

1. You don't need to do anything else if it was entered within two years of visit date. Highlight the current smoking status and click "edit." The pop-up box will show the last date the smoking status was assessed. If the status has not changed, then type in "unchanged" in the "Current impression" box.

The screenshot shows a medical software interface. On the left, there is a table of active problems:

Name	ICD-9	ICD-10	Mar
Abdominal pain	789.00	R10.9	
Chest pain	786.50	R07.9	
Diabetes	250.00	E11.9	
Fever	780.60	R50.9	
Finger injury	959.5	S69.90XA	
Sore throat	462	J02.9	
Health Maintenance	V70.0	Z00.00	

Below the table are sections for Past Medical History, Past Surgical History, Family History, and Social History. The Social History section is expanded to show "Current every day smoker" with ICD-9 code 305.1 and ICD-10 code Z72.0.

On the right, a detailed view of the "Current every day smoker" problem is shown. It includes a description field (1000 Chars), an impressions field (2000 Chars) containing the text "Unchanged", and a "Managed by" field. There are also date fields for "Onset Date" and "Resolved" (both set to "Today"), and a "Last Reviewed" date of "25Jun2014".

Enter in Error smoking status:

1. Highlight the smoking problem that was entered in error.
2. Right click and click "Edit" and then change status to "Entered in Error"

The screenshot shows the "Current every day smoker" problem view. The "Status:" dropdown menu is open, showing the following options: "Entered in Error", "Active", "Denied", "Entered in Error", and "Resolved". The "Entered in Error" option is highlighted. The "Status:" label is circled in red.

3. Then click "OK" and commit
