Sharp Link: Imaging Orders Workflow

Follow the steps below to enter a Radiology order in Sharp Link.

Try It Out

Place a new Imaging order.

1. Select the Patient tab and click Order Entry. ***Select a patient if one is not already in context.

			🗸 Accept Or	ders X Discard Orders

- 5. Click Accept Orders to review a list of your orders and make any necessary changes before signing them.
- 6. If there is a required (••) or recommended (••) icon next to an order, you can enter more information. Click an order's name to edit details like quantity or associated diagnoses.
 - For a procedure order, you can attach a file, such as a scanned image, to the order.
 - To associate a diagnosis with a single order, either select the check box for a recent diagnosis in the Dx Association section or enter a new diagnosis in the Add a new diagnosis field and press Enter.

- You can enter a partial word in a field instead of a whole word to reduce the amount of time you spend typing.
 - For example, entering "che" in the New procedure field in Order Entry shows you all the procedures beginning with or contain "che." You can use this shortcut for any information that is stored in the database, such as procedures and other providers' names.
