

FollowMyHealth®

How to View Lab Results

If you have a FollowMyHealth® account, you can access your lab results as soon as they are available on your computer or mobile device, without having to wait for a phone call from your doctor's office.

If you have enabled notifications in your FollowMyHealth® account, you will receive an email when your results are available to view.

How to view your lab results from your computer:

1. Log in to your account on the FollowMyHealth® website.
2. Under the Action Center section, click the link that says results were added to your health record. Alternatively, you can click the "My Health" tab at the top, then select the sub-tab "Results."
3. To the right of your results, click the  icon. This will pop up a new window with your result details.
4. Scroll down to the "Annotations" section to view your doctor's notes.

How to view your lab results from your mobile device:

1. Open your FollowMyHealth® app and log in to your account.
2. Under the Action Center tab, click the link that says results were added to your health record.
3. Select "Results," then click the test you are looking for, which will open the summary page.
4. Click on the test from the summary page to open the result details.
5. Scroll down to the "Annotations" section to view your doctor's notes.

If you have any questions about your test results, you can call your doctor's office.
