

# STEPS TO REDUCE AMAZON PACKAGING

<https://earth911.com/business-policy/reduce-amazon-packaging-waste/>

## Reach Out

Those concerned about the packaging in their orders can email Amazon's customer service team at [cs-reply@amazon.com](mailto:cs-reply@amazon.com) to request minimal plastic packaging inside their orders. Customer service will add a note to your Amazon account so employees can note your packaging preference when fulfilling your Amazon orders in the future. Here's an example email you can use to ask Amazon to reduce waste in your orders:

Hi,

My name is \_\_\_\_\_. The email address attached to my Amazon account is \_\_\_\_\_.

I'm requesting that Amazon use minimal packaging in all of my future orders. Please note on my account to avoid plastic packaging like bubble wrap and plastic air pillows when fulfilling my orders.

Thank you!

Amazon will respond within a day of receiving your message to let you know they've added a note to your account.
