Our doctors routinely perform pupillary dilations and visual field testing. These tests allow our doctors to rule out retinal disease and check for Cataracts, Macular Degeneration, Glaucoma, and other visual pathway diseases that may lead to loss of sight. Our doctors may find it necessary to run additional diagnostic tests, which may not be covered by your insurance and additional fee for some of these diagnostic tests may apply. This service may not be covered by some insurance plans.

❑ OK to perform tests today ❑ I will reschedule these tests ❑ I will follow the doctor's recommendation

Professional fees are due upon completion of services and are non refundable.

Thank you for the priviledge of allowing Nationwide Optometry P.C. to take care of your eye health and vision needs.
