Our newest clients include operators and managers of **skilled nursing facilities, assisted living communities, memory care, home health, hospice, and continuing care retirement communities**. Many oversee portfolios of facilities across multiple states, requiring consistent risk management, claims coordination, and loss prevention strategies.

### Transportation and Logistics

We've added insureds specializing in **trucking, fleet operations, contract transportation, and special needs student bussing**, with several accounts integrating **commercial auto coverage** alongside workers' compensation. These organizations depend on proactive safety programs and responsive claims support to keep their operations moving.

New accounts also include **manufacturing and distribution operations**, many with geographically dispersed locations and diverse workforce profiles. Our approach ensures consistency across jurisdictions while addressing the unique risks of each industry segment.

### Retail and Service

Our new **retail and service-providing** insureds are headquartered across the country with operational footprints that extend coast to coast. This breadth reinforces our ability to support national employers with **localized expertise backed by a unified strategy**.
