

PEOPLE OF N26

Gino Cordt

Chief Technology Officer

As the Chief Technology Officer of N26, Gino oversees the firm's Data and Technology divisions, with the important responsibility of bringing data and security together while building the digital bank the world loves to use.

With diverse experience in retail, private equity, capital markets and strategy consulting, Gino has always had a passion for data and all things technical.

He joined the company in June 2015 as Head of Data, before becoming Chief Data Officer two years later. He continues to bring a strong focus on data-driven insight and innovation to his role today.

Gino holds a degree in Accounting & Finance (M.A. HSG) from the University of St. Gallen.
