

PEOPLE OF N26

Markus Gunter

Chief Executive Officer, N26 Bank

Markus is one of the longest serving employees at N26 after the founders. Having played an instrumental role in helping to secure the firm's European Banking License, he was appointed CEO of N26 Bank in 2016.

On top of being a key part of N26's growth journey, Markus also has huge experience in building trust and innovation in banking. He pioneered the first internet platform of the German bank HYPO-BANK AG. As managing director of Activest, later rebranded as Pioneer Investments, he grew the company to one of the top five asset management companies in Germany.

However, it was during his time as CEO of stock exchange-listed DAB Bank AG where Markus realized that mobile banking was set to be a true gamechanger in the global finance industry - the very reason that led him to take on his current role at N26.

Markus studied Business Administration along with a banking apprenticeship in Germany that started him on his journey in the finance industry.
