URBAN OUTFITTERS

Assembly Instructions

STEP 1

Assemble the top panel (1) to two legs (2) with bolt (A) and Allen key (B) as shown.

STEP 2

Place the shelf on the wall in its desired location. Ensure the shelf is level and mark the location of the mounting holes in the shelf on the wall (see dimensions below). Pre-drill hole for the plastic anchor (C) at the marked hole location using a drill and use a hammer to tap it into the wall. If attaching directly to studs, you do not need to install the plastic anchors (C).

STEP 3

Insert screws (D) into the plastic anchors or directly into a stud, leaving 1/4" of the screws (D) out of the wall. Place the shelf back over the screw (D) to finish the installation.
