Assembly Instructions

URBAN OUTFITTERS

STEP 1

Place the cleat on the wall in its desired location. Ensure the cleat is level and mark the location of the screw holes. If attaching to drywall, insert the anchors (A) into the wall at the marked hole locations, then insert screws (B) through the cleat into the anchors (A). Tighten with a Phillips head screwdriver. If screwing into studs, no anchor is required, screw directly into the studs.

STEP 2

With help, hang the headboard (D) onto Cleat (C) to complete assembly.
