Assembly Instructions

URBAN OUTFITTERS

STEP 1

Adjust the levelers as shown below to accommodate uneven floors.

STEP 2

- A) Align the bracket (B) to the top back of the vanity as shown. Insert screws (D) and tighten with a phillips head screwdriver (not included). Place the second bracket (B) against the wall directly behind the vanity and mark the location.
- B) Wood or Stud installation:
Insert the screw (C) through the second bracket (B). Then, use a phillips head screwdriver to fasten the screws (C) directly into the wall at the marked location.

Alternate installation:

Contact your local hardware store to source the correct anchors for your wall type, follow the directions to attach the anchors to the wall at the marked locations. Insert the screws (C) (or screws supplied with anchors) through the second bracket (B) and into the anchors, then tighten with a phillips head screwdriver (not included).

- C) Place the vanity against the wall aligning the brackets (B), then run the Strap (A) through both brackets (B) and pull it tight to secure the vanity.
