

BARASTOC

BREEDING FEEDS

BREED N GROW

FULLY FORTIFIED PELLET

BREEDING & YOUNGSTOCK SUPPORT

STEADY GROWTH

IMMUNE SYSTEM SUPPORT

BONE STRENGTH & DEVELOPMENT

A fully fortified feed to support the specific nutritional needs of breeding horses and youngstock.

WHAT WILL IT PROVIDE MY HORSE?

A low starch formula to support the steady growth of youngstock and help minimise growth and developmental disorders.
Fully fortified with vitamins, minerals and bio-available silicon to promote bone development and density, and to help maintain skeletal integrity.
Specially formulated to provide the nutrients required to maximise fertility and conception in breeding stock.
Pelleted for nutritional consistency to ensure your horse receives the right balance of nutrients in every mouthful.

300 – 400	Yearling	12 – 18 months of age	3.0 – 4.0
500	Dry Mare	1st & 2nd Trimester	2.0 – 4.0
500	Pregnant Mares	Last Trimester	3.0 – 6.0
500	Lactating Mares	1st 3 Months	3.0 – 6.0
500	Breeding Stallion	–	2.0 – 5.0

SCAN THE QR CODE for a stable choice in every mouthful.

Do not feed more than 2.5Kg per meal. For horses/ponies that will not mature to 500Kg please consult Barastoc/KER for a more detailed feeding rate and diet analysis. The recommendations provided are intended as a guide only. The amount fed will vary according to the horse's condition and the quality of pasture and/or roughage available. Barastoc Breed N Grow can be used to supplement grazing and/or high quality roughage to not more than one half of the horse's daily feed intake by weight. Introduce this product gradually over a two week period. Intakes less than the levels listed may require additional vitamin and mineral supplementation.
