

— FEED FOCUS —**BARASTOC GROOM**

That show-ring glow, all year round.

For horses that need to shine—from the inside out—Barastoc Groom is your go-to daily supplement. Whether you're prepping for competition or simply want your horse to look and feel their best, Barastoc Groom provides the finishing touch to any diet, delivering targeted support for coat, skin and hoof health.

It's ideal for show horses, spelling horses, or those needing a top-up of essential nutrients when pasture or basic feeds aren't quite enough.

Why Choose Barastoc Groom?**1. Targeted hoof and coat support**

Barastoc Groom contains:

- Biotin, zinc and methionine—essential for supporting hoof growth, strength and integrity
- Omega fatty acids—to improve coat softness and shine while supporting healthy skin barrier function

2. Natural Vitamin E for immune and skin health

Groom includes natural-sourced Vitamin E (d-alpha-tocopherol), known for its superior bioavailability compared to synthetic forms. Natural Vitamin E;

- acts as a powerful antioxidant to reduce oxidative stress
- supports immune function, especially in horses under work, travel, or environmental stress
- contributes to coat and skin health by maintaining cell membrane integrity

3. Complete vitamin and mineral balance

In addition to targeted nutrients, Barastoc Groom rounds out your horse's ration with a full spectrum of vitamins and trace minerals. It's an ideal way to balance grain- or forage-only diets and fill any nutritional gaps.

Who is it for?

Barastoc Groom is suitable for all horses, but especially:

- Horses with dry, dull coats or poor hoof quality
- Show horses or sales preps needing a sleek finish
- Horses on basic grain or pasture diets without added supplements

How to Feed

Add Barastoc Groom to your horse's daily feed, mixed with their normal feed ration. Adjust according to body size and condition. Introduce gradually over 5-7 days. For best results, feed daily as part of a balanced diet. For personalised support, contact a Barastoc nutritionist or complete a free diet analysis at barastochorse.com.au/diet-request
