

 RIDLEY

BARASTOC

BREEDING & STUD FEEDS

**BREED N
GROW**

FULL FEED PELLET

Our fully fortified feed is formulated to support your horses through both their breeding and growing phases.

WHAT WILL IT PROVIDE MY HORSE?

Low starch formula to support a Low GI diet and assist in reducing growth and developmental disorders.

Fortified vitamin and mineral feed with added bio-available silicon to promote bone development and density, and assist in maintaining skeletal integrity.

Pelleted for nutritional consistency, ensuring your horse receives the right balance of nutrients in every mouthful.

		Manganese	155mg	Biotin	0.35mg
		Selenium	1.0mg		
		Iodine	1.3mg		
		Cobalt	0.3mg		

HOW MUCH SHOULD I FEED MY HORSE?

FEEDING GUIDE Suggested Feeding Rate (Kg / Day)			
Bodyweight (Kg)	Development Stage		Feeding Rate (Kg/Day)
100 - 200	Creep Feeding Foals	2 - 5 months of age	1.0 - 2.0
200 - 300	Weanlings	5 - 12 months of age	2.0 - 3.0
300 - 400	Yearling	12 - 18 months of age	3.0 - 4.0
500	Dry Mare	1st & 2nd Trimester	2.0 - 4.0
500	Pregnant Mares	Last Trimester	3.0 - 6.0
500	Lactating Mares	1st 3 Months	3.0 - 6.0
500	Breeding Stallion	-	2.0 - 5.0

Do not feed more than 2.5Kg per meal. For horses/ponies that will not mature to 500Kg please consult Barastoc/KER for a more detailed feeding rate and diet analysis. The recommendations provided are intended as a guide only. The amount fed will vary according to the horse's condition and the quality of pasture and/or roughage available. Barastoc Breed N Grow can be used to supplement grazing and/or high quality roughage to not more than one half of the horse's daily feed intake by weight. Introduce this product gradually over a two week period. Intakes less than the levels listed may require additional vitamin and mineral supplementation.
