

THE WORLD'S NO.1 QUICK SOAKING BEET FLAKES

MANAGEMENT ADVICE FOR HORSES AND PONIES PRONE TO OR AT RISK FROM EQUINE GASTRIC ULCER SYNDROME.

Speedi-Beet is quick soaking and 95% SUGAR FREE as well as being low in starch and high in digestible fibre. And when your horse is at risk of Equine Gastric Ulcer Syndrome, it is important to feed frequently and in small meal sizes. Speedi-Beet helps you increased forage intakes and as a result, chewing time, which will increase saliva production to help naturally buffer stomach acid.

WHAT WILL IT DO?

- High levels of fibre to stimulate digestion & buffer against gastric ulcers
- A low calorie diet to provide your horse or pony the right amount of energy when resting or in light work.
- All natural Barastoc Superfibres™ to promote gut health and to support the digestive function.
- A low starch formula that is suitable for horses and ponies that cannot tolerate high grain diets.
- Pelleted to ensure your horse or pony received the right balance of nutrients in every mouthful.

WHAT'S IN IT?

Speedi-beet Flakes,

horses come first
