The recommendations provided are intended as a guide only. BARASTOC CONTROL can be used to supplement grazing and/or high quality roughage to not more than one half of the horse's daily feed intake by weight. The amount fed will vary according to the horse's condition and the quality of the pasture and/or roughage available. Introduce this product gradually over a two week period. Intakes less than the levels listed may require additional vitamin and mineral supplementation. Do not feed more than 2.5kg per meal.
