

— FEED FOCUS —**BARASTOC WORKHORSE**

Formulated for horses that work hard and keep going.

Barastoc Workhorse is built for horses that put in the hours and never back down. Whether you're covering kilometres mustering, drafting, or backing up day after day in the paddock, Barastoc Workhorse delivers the fuel your horse needs to perform, recover and go again.

Barastoc Workhorse is the trusted choice for station horses, working horses, and all-rounders putting in regular physical effort. Designed to deliver energy that lasts, it supports stamina, hydration and recovery for high performance horses.

Why Choose Barastoc Workhorse?

Barastoc Workhorse is formulated with both Diamond V™ and Gastrolize™, giving it a dual-action approach to gut health and nutrient absorption. Diamond V® is a postbiotic derived from a natural fermentation process that promotes a healthy balance of gut bacteria, improves fibre digestion, and supports the immune system—ideal for hardworking horses under physical stress. Gastrolize® a natural buffer harvested from red seaweed, helps stabilise stomach pH and supports horses that may be prone to digestive discomfort – including gastric ulcers – particularly under the demands of heavy work.

Together, these ingredients provide long-lasting digestive support and resilience from the inside, out.

Barastoc Workhorse delivers:

- High-calorie energy from steam-flaked grains, fibre and added oil
- Gut health and immune support from Diamond V®
- Digestive comfort and pH buffering from Gastrolize®
- Electrolytes and key minerals to help replace those lost through sweat

It's a muesli-style feed that's easy to digest, highly palatable, and formulated to support stamina, hydration and condition.

Whether you're mustering, training or competing, Barastoc Workhorse keeps your horse going strong.

How to Feed

Introduce slowly over 7-10 days and feed alongside quality hay or pasture. Need support planning the ideal diet? Chat to one of our Barastoc nutrition experts or complete a free diet analysis at barastochorse.com.au/diet-request
