HOW MUCH SHOULD I FEED MY HORSE?

The recommendations provided are intended as a guide only. If you are feeding any other fortified feeds and/or supplements please consult a veterinarian or equine nutritionist. The amount fed will vary according to the horse's condition and the quality of pasture and/or roughage available.

- Provide one block for up to 10 horses and replace as necessary.
- Usual intake: 100–300 grams per head per day.
- Place blocks in high, well drained location.
- Ensure a plentiful supply of pasture or hay is available when feeding this product.
