

THE IDEAL LIQUID FEED DIET WITH SPEEDI-BEET & ALFALFA

A carefully formulated combination of Speedi-Beet, alfalfa and oat fibre - a superb conditioning fibre feed and forage replacer.

Fibre-Beet recognizes the fact that horses evolved principally to eat grass which contains 80 to 90% water. Fibre-Beet is designed to be fed as a wet feed (liquid diet) which is the most natural way to feed your horse.

WHAT WILL IT DO?

- Excellent source of highly digestible fibre in a liquid form and provides your horse with slow release energy without fizz
- Slow release energy source, low in starch and sugar for horses and ponies prone to laminitis
- Soft, wet feed for recovering or veteran horses with added biotin to help maintain hoof condition

WHAT'S IN IT?

Speedi-beet Flakes, Alfalfa Nuts, Oatfeed Pellets, Cane Molasses, Vegetable Fat, Biotin, Peppermint.
