

# BARASTOC

## FROM OUR STABLE TO YOURS.

Our range of horse feed  
& supplements.

*horses come first*

Not everyone gets it. Not everyone knows the magic of a horse, nuzzling your palm on a cold, dewy morning. Or the reasons why weekends, early mornings or the middle of the night are the times when horses come first.

But horse people get it.

Having a horse isn't just a lifestyle. It's a whole life. To create an environment where horses don't just feel at home, they thrive. To find the perfect mix of feed that makes them shine, inside and out. Horse people know that it is about more than just care, or even love. It's a passion. And horses always come first.

We are horse people too. Supporting your passion is our passion. That's why we don't just make feed. We support young riders, local communities and Aussie farmers. We've been doing it for over 50 years and we're not stopping anytime soon.

**We are Barastoc.**

Horses come first.

# THE BARASTOC EQUINE RANGE.

Our dedicated nutritionists created the Barastoc horse feed range in consultation with the experts at Kentucky Equine Research. You can have confidence that each of our quality feeds provides the relevant nutritional requirements, based on class and developmental state.

## SPORT & LEISURE

A range of complete and concentrated feeds, tailored for horses with light to moderate activity requirements.

## PERFORMANCE

A range of complete and concentrated feeds, nutritionally balanced for performance horses with moderate to high energy requirements.

## BREEDING & STUD

Formulated to meet the extra nutritional demands of horses from gestation, into the first few years of growth and while pregnant and lactating.

## SPECIALTY

A range of feeds to support horses in diverse conditions, changing environments and with health conditions.

## SUPPLEMENTS

Developed to promote the health and well-being of your horse, our supplements are sourced from the best available ingredients.

## SPORT & LEISURE RANGE

*A range of complete feeds,  
tailored for horses with light to moderate  
activity requirements.*

# CALM PERFORMER | HORSE & PONY PELLET

*A nutritionally balanced, cool feed for your horse or pony.*

## WHAT WILL IT PROVIDE MY HORSE?

A low GI diet for your horse with added Barastoc Superfibres™ to promote gut health.

Magnesium to help keep your horse calm and maintain muscle integrity.

Increased vitamin and mineral levels, essential for the right balance of nutrients.

## INGREDIENTS

Barastoc Superfibres™, Millrun, Canola Meal, Barley, Molasses, Omega Rich Vegetable Oil, Calcium Carbonate, Mono-Di Calcium Phosphate, Magnesium Oxide, Salt KER Vitamin & Mineral Premix, Vitamin E.

## TYPICAL NUTRITION ANALYSIS OF BARASTOC CALM PERFORMER (PER KG FED)

### NUTRIENT LEVELS

Est Digestible Energy	11.5MJ	Min Salt	0.75%
Min Crude Protein	11%	Max Starch	15%
Min Crude Fat	4.25%	Min Lysine	0.36%
Max Crude Fibre	20%

## HOW MUCH SHOULD I FEED MY HORSE?

### FEEDING GUIDE Suggested Feeding Rate (Kg / Day)

Bodyweight (Kg)	Development Stage		Feeding Rate
200 – 300	Weanlings	5 – 12 months	1.0
300 – 450	Yearlings	2 – 24 months	1.0
500	Pregnant Mare	Mid-late stage	0.75 – 1.0
500	Lactating Mare		0.75 – 1.0
500	Breeding Stallion		0.5 – 0.75
500	Maintenance, Light Work		0.5 – 1.0

The recommendations provided are intended as a guide only.

Barastoc KER Stud Balancer can be used to supplement grain and forage, or just forage, based diets. The concentrate portion should be not more than one half of the horse's daily feed intake by weight. Adjust concentrate intake according to need based on body condition, growth rate and available forage. Introduce this product gradually over a two week period. For horses/ponies that will not mature to 500kg please consult Barastoc / KER for a more detailed feeding rate and diet analysis.

## PREPARE | FULL FEED MUESLI, GROWING SUPPORT

*The ultimate full feed muesli for brood mares, breeding stallions, weanlings and yearlings.*

### WHAT WILL IT PROVIDE MY HORSE?

Fully fortified muesli to ensure the appropriate nutrient levels required for bone growth development, pregnancy and lactation.

Contains natural Vitamin E for antioxidant support of your horse's immunity and to assist in reproduction.

Formulated with high quality protein and added amino acids for growth with yeast cultures to promote gut health.

### INGREDIENTS

Steamed Flaked Barley, Steam Flaked Corn, Steam Flaked Lupins, Oats, Sunflower Seeds, Barastoc Protenise Pellet containing KER Vitamin & Mineral Premix, Omega Rich Vegetable Oil, Molasses, Salt, Lysine, Yeast culture.

### TYPICAL NUTRITION ANALYSIS OF BARASTOC PREPARE (PER KG FED)

500	Breeding Stallion		2.0 - 5.0

The recommendations provided are intended as a guide only.

Barastoc Prepare should be used to supplement grazing and/or high quality roughage to not more than one half of the horse's daily feed intake by weight. Introduce this product gradually over a two week period. Intakes less than the levels listed may require additional vitamin and mineral supplementation. Do not feed more than 2.5kgs of this product per meal. Intakes less than the levels listed may require additional vitamin and mineral supplementation.

## LEGEND | CONCENTRATE MUESLI

*Our oat-free muesli concentrate to support brood mares, breeding stallions, weanlings and yearlings.*

### WHAT WILL IT PROVIDE MY HORSE?

A concentrated, oat-free, low starch muesli with the flexibility to add grain, allowing control of weight gain and body condition without sacrificing mineral and protein nutrition.

Contains natural Vitamin E for antioxidant support of your horse's immunity and to assist in reproduction.

Formulated with yeast cultures to promote gut health.

### INGREDIENTS

Steamed Flaked Barley, Steam Flaked Corn, Steam Flaked Lupins, Sunflower Seeds, Salt, Magnesium Oxide, Omega Rich Vegetable Oil, Molasses, Lysine, Yeast Culture, KER Vitamin & Mineral Premix.

### TYPICAL NUTRITION ANALYSIS OF BARASTOC LEGEND (PER KG FED)

The recommendations provided are intended as a guide only.

Barastoc Legend can be used to supplement grazing and/or high quality roughage to not more than one half of the horse's daily feed intake by weight. Introduce this product gradually over a two week period. Intakes less than the levels listed may require additional vitamin and mineral supplementation. Do not feed more than 1.5kgs of this product per meal. Intakes less than the levels listed may require additional vitamin and mineral supplementation.

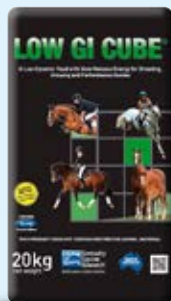

## SPECIALTY FEEDS

*A range of feeds to support horses in  
diverse conditions, changing environments  
and with health conditions.*

# LOW GI CUBE | SPECIALTY CUBE

*A low-glycaemic cube with slow-release energy for breeding, growing and performance horses.*

## WHAT WILL IT PROVIDE MY HORSE?

A low-starch and low-glycaemic index feed for horses not suited to high grain diets and/or are at risk of Developmental Orthopaedic Disease.

Contains multiple super fibre sources and added oil to ensure a slow release of energy and to promote digestion and hindgut health.

The right balance of bio-available organic trace minerals and natural Vitamin E for coat quality, hoof wall growth and bone mineralization.

## INGREDIENTS

Cereal By-products, Vegetable Protein Meal, Cereal Grain, Barastoc Superfibres™, Calcium Carbonate, Mono-Di Calcium Phosphate, Salt, Molasses, Omega Rich Vegetable Oil, Lysine, Methionine, Bentonite, Manganese, Cobalt, KER Vitamin & Mineral Premix.

## TYPICAL NUTRITION ANALYSIS OF BARASTOC LOW GI CUBE (PER KG FED)

500	Breeding Stallion		2.0 – 5.0

The recommendations provided are intended as a guide only.

The amount fed will vary according to the horse's condition and the quality of pasture and/or roughage available. Barastoc Low GI Cube can be used to supplement grazing and/or high quality roughage to not more than one half of the horse's daily feed intake by weight. Introduce this product gradually over a two week period. Intakes less than the levels listed may require additional vitamin and mineral supplementation. For horses / ponies that will not mature to 500kg please consult Barastoc / KER for a more detailed feeding rate and diet analysis.

## SENIOR | SUPPORT PELLET

*Highly palatable  
and easy-to-digest  
nutrition support pellet  
for older horses.*

### WHAT WILL IT PROVIDE MY HORSE?

Specifically formulated for improved digestibility and palatability in older horses with increased levels of highly fibre and yeast cultures.

Contains natural Vitamin E for antioxidant support and promotion of hoof wall growth and bone mineralisation.

Fortified with vitamins and trace minerals to compensate for decreased digestive function, ensuring older horses received the nutrients required for general health and well being.

### INGREDIENTS

Cereal Grains, Bran, Pollard, Omega Rich Vegetable Oil, Legume Hulls, Molasses, Calcium Carbonate, Monocalcium Phosphate, Magnesium Oxide, Salt, Bentonite, Yeast Culture, Vitamin & Trace Mineral Premix.

600	1.0 - 2.5	1.0 - 3.0	1.0 - 3.5

The recommendations provided are intended as a guide only.

Barastoc Equibix can be used to supplement grazing and/or high quality roughage to not more than one half of the horse's daily feed intake by weight. Introduce this product gradually over a two week period starting with only 500grams per day. Intakes less than the levels listed may require additional vitamin and mineral supplementation. Do not feed more than 2.5kgs of this product per meal.

# STEAM FLAKED BARLEY WITH MOLASSES | BLENDED GRAIN

*A highly palatable and digestible supplementary source of energy for horses in work.*

## WHAT WILL IT PROVIDE MY HORSE?

A controlled energy boost when used to supplement your horse's regular feed.

Steam flaked for improved digestibility and to reduce digestive complications sometimes associated with high grain diets.

Added Molasses to increase palatability.

## INGREDIENTS

Steam Flaked Barley and Molasses.

## TYPICAL NUTRITION ANALYSIS OF BARASTOC STEAM FLAKED BARLEY WITH MOLASSES (PER KG FED)

### NUTRIENT LEVELS

Est Digestible Energy	13MJ	Min Salt	0%
Min Crude Protein	8%	Max Starch	43%
Min Crude Fat	1%	Min Lysine	0.33%
Max Crude Fibre	10%		

### MACRO MINERALS

Calcium	0.1%	Chloride	0.25%
Phosphorous	0.3%	Magnesium	0.15%
Sodium	0.03%	Potassium	0.65%

## HOW MUCH SHOULD I FEED MY HORSE?

### FEEDING GUIDE Suggested Feeding Rate (Kg / Day)

Bodyweight (Kg)	Moderate Work	Heavy Work
300	1.0 – 2.0	1.25 – 3.0
400	1.0 – 2.5	1.5 – 3.0
500	1.5 – 3.0	2.0 – 3.5
600	2.0 – 3.5	2.5 – 4.0

The recommendations provided are intended as a guide only.

For Sheep/Cattle/Goats: feed up to 1% of bodyweight per day. The amount fed will vary according to the horse's condition and the quality of pasture and/or roughage available. Barastoc Steam Flaked Barley with Molasses should be used to supplement grazing and/or high quality roughage, with a fortified feed or supplement, to not more than one third the horse's daily feed intake by weight. Introduce this product gradually over a two week period starting with only 500 grams per day.

## SUPPLEMENTS RANGE

*Developed to promote the health and well-being  
of your horse, our supplements are sourced  
from the best available ingredients.*

# HORSE BLOCK | PROTEIN & MINERALS BLOCK

*A protein and minerals supplement for grazing horses.*

## WHAT WILL IT PROVIDE MY HORSE?

Protein and mineral supplement to balance pasture deficiencies.

Formulated with essential amino acids and high quality vegetable protein providing nutrients for maintenance, growth and repair.

Added Molasses for palatability and ready acceptance, packed in an edible carton.

## INGREDIENTS

Soyabean Meal, Molasses, Vegetable Oil, Salt, Trace Mineral & Vitamin Premix.

## TYPICAL NUTRITION ANALYSIS OF BARASTOC HORSE BLOCK (PER KG FED)

### NUTRIENT LEVELS

Est Digestible Energy	8.0MJ	Min Salt	3.0%

## HOW MUCH SHOULD I FEED MY HORSE?

### FEEDING GUIDE Suggested Feeding Rate (Kg / Day)

- Provide one block for up to 10 horses and replace as necessary.
- Usual intake: 100 to 300 grams per head per day.
- Place blocks in high, well drained location.
- Ensure a plentiful supply of pasture or hay is available when feeding this product.

The recommendations provided are intended as a guide only.

If you are feeding any other fortified feeds and/or supplements please consult a veterinarian or nutritionist. This feed has been formulated specifically for animals as described above, and must not be used for other species of animals.

### GROOM | COAT CONDITIONER

*A complete vitamin & mineral supplement designed to support hoof and coat health and to enhance the well-being and appearance of your horse.*

#### WHAT WILL IT PROVIDE MY HORSE?

Enhance hoof structure and coat condition with restorative levels of Biotin, Zinc and Methionine.

Improve utilisation of minerals and fibre and enhance gut microbiome with inclusion of yeast metabolites.

May aid laminitis recovery through keratinisation of connective hoof and lamina tissues.

#### INGREDIENTS

Copra Meal, Soybean Meal, Full Fat Soybean Meal, Canola Meal, Omega Rich Vegetable Oil, Yeast Culture, Calcium Carbonate, Mono Dicalcium Phosphate, Salt, Magnesium Oxide, Lysine and Methionine – Essential Amino Acids, Vitamin E, Biotin and KER Vitamin & Mineral Premix.

#### TYPICAL NUTRITION ANALYSIS OF BARASTOC GROOM (PER KG FED)

##### NUTRIENT LEVELS
