BARASTOC SUPREME

Build topline, develop condition and support recovery the smart way.

Whether your horse is preparing for the show ring, bouncing back from injury or just needs help holding condition, Barastoc Supreme is designed to deliver visible results—from stronger muscle tone and improved topline to a healthier gut and improved recovery.

Our low dose, high-fat, high-protein feed is ideal for show horses, poor doers, and those needing nutritional support through work, stress or seasonal changes. It's a feed that does more than build condition—it builds health from the inside out.

Why Choose Barastoc Supreme?**1. Conditioning without the fizz**

Supreme provides energy through high levels of digestible fat and quality protein, making it ideal for:

- Horses needing topline and muscle tone
- Poor doers who need condition without high-starch energy
- Horses recovering from illness or stress

2. Powered by Diamond V®

Diamond V® is a natural postbiotic, derived from a unique fermentation process of *Saccharomyces cerevisiae*. It promotes robust gut health by improving the balance of beneficial bacteria in the hindgut, enhancing fibre digestibility, and boosting immune resilience.

Scientific research shows Diamond V® supports:

- Improved gut morphology
- More efficient feed conversion
- Reduced systemic inflammation
- Stronger immune function during stress or recovery

3. Enhanced by Gastrolize®

Barastoc Supreme also includes Gastrolize®, a gentle, slow-releasing buffer made from red seaweed (*Lithothamnion calcareum*). It helps:

- Increase and stabilise the pH in the stomach and hindgut
- Reduce the risk of gastric ulcers and acidosis
- Improve the uptake of key minerals and nutrients

BARASTOC

FOOD FOR THOUGHT

— FEED FOCUS —

BARASTOC SUPREME

Gastrolize's honeycomb-like structure delivers highly bioavailable calcium and magnesium, supporting stronger bones, better nerve function and more consistent digestion.

The Supreme Advantage

From topline to gut health, immune support to recovery, Barastoc Supreme is more than just a conditioning feed—it's a complete tool for building a healthier, more resilient horse.

Barastoc Supreme is a low-dose muesli feed, designed to be fed daily alongside good-quality pasture or hay, and introduced gradually over 7-10 days. For personalised support, contact a Barastoc nutritionist or complete a free diet analysis at barastochorse.com.au/diet-request
