

Connecting your phone

Connecting the power cable

Connecting devices to your network

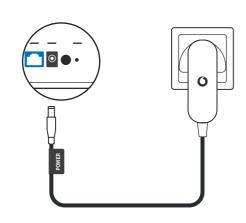

Plug one end of the phone cable into your telephone.

A If you have ordered a Broadband Voice service, plug the other end of the cable into the black telephone port on the back of the Vodafone Gigabox.

B If you have ordered a Landline Voice (PSTN) service, plug the other end of the cable directly into the phone socket on the wall.

Note:

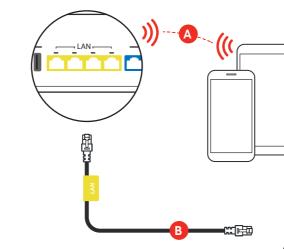

You can confirm which voice service you have by checking your welcome letter or email.

Plug the black labelled power cable into the power port on the back of the Gigabox and the power supply plug into the wall socket.

Press the power button on the Vodafone Gigabox.

Once you're connected to the internet the modem's internet light will turn from red to solid white.

A Wi-Fi: On your chosen device, search and connect to the Vodafone Wi-Fi network. The network name and password are on the bottom of the modem and look like this:

O vodafone	Gigabox	WIFI QR-Code:	(6 🛲	
Manage your settings by going to the following address on your			CC SHEE	S/N: Eyymm8XKnnnnn
device's internet browser: http://192.168.1.1	WFFIname: vodafone-XXXX		X

To access the online portal please follow the below steps:

- 1 Open the internet browser on your device.
- 2 Enter the URL found on the label on the bottom of your Gigabox.
- 3 Enter the username and password also printed on the same label.

Vodafone recommends you change your Wi-Fi password once your modem has been set up. You can log into your Vodafone Gigabox online portal to change your password or this can also be changed from the modem app.

If you need help:

You'll find lots of helpful information at vodafone.ie/support

Or if you'd prefer, you can call us for free on 1907

Simple

B Ethernet: Using the yellow labelled cable, plug one end

into your device and the other end into one of the yellow

Ethernet ports on the modem. You can connect up to four

devices via Ethernet at the same time.

Vodafone Gigabox

Your Vodafone Gigabox modem app

Your Gigabox explained

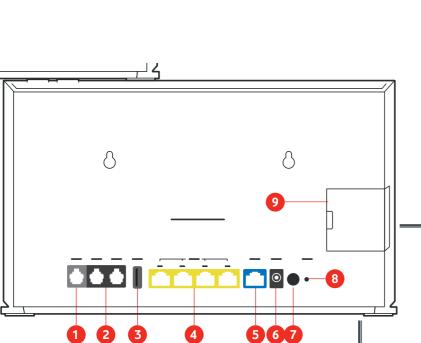

۲

For easy to follow steps on setting up your Vodafone Gigabox simply download our dedicated modem app. The app allows you to:

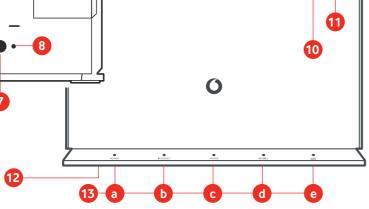

- Turn your Wi-Fi on and off.
- Change the name of your Wi-Fi network.
- Easily search for and view the services connected to your Wi-Fi network and prioritise their access.

Search for the Vodafone Gigabox app in the Google or Apple store.

Valley Fc

What do the LED lights and colours mean?

There are 5 status lights on the base of the modem.

Please note: It may take up to five minutes for your modem to connect to the internet when powered on for the first time. Please do not switch off your modem during this time.

13a: POWER

White stable: Power is on

13b: INTERNET

- White blinking: Broadband connection is active
- White stable: Successfully connected to the Internet
- Red blinking fast: Connection error
