

# PRECISION YOU CAN TRUST

## CALIBRATION SERVICES BY MSC

### Your Single-Source Partner for Calibration and Measuring Equipment Repair

Stay accurate, compliant, and competitive with MSC. Our calibration and repair services include dimensional measuring tool calibration, validation for quality control, and equipment repair services. Partner with us to keep your critical testing and measuring instruments reliable and consistent, so you can focus on what matters most – your business.

#### Customer Challenges We Solve

- Meet tighter tolerances at lower costs
- Reduce scrap from out-of-tolerance tools
- Avoid costly replacements with repair services
- Fill skilled labor gaps with smart tools and dedicated experts
- Consistently meet compliance standards in high-cost-of-failure environments

#### Why Choose MSC?

- All your metrology needs under one roof: equipment, calibration and repair needs
- ISO/IEC 17025 Accredited Calibration Services
- Industry Leading 3–5 Day Turnaround Time
- Flexible services: in-lab, on-site, or in-process calibration across multiple disciplines

#### Our Capabilities Include:

- **Hard Gage Calibration** – Pin gages, gage blocks, plugs, rings
- **Hand Tool Calibration** – Calipers, micrometers, height gages
- **Electronic Calibration** – Multimeters, oscilloscopes, RF equipment
- **Mechanical Calibration** – Torque wrenches, load cells, pressure gages
- **Dimensional Inspection** – First article, reverse engineering, capability studies
