MSC's Community Relations efforts are aimed at making a measurable impact in our local communities by promoting our unique culture of teamwork, delivering positive results, sharing and economic empowerment. Striving to make an equitable difference, we seek to build strong partnerships with organizations and our communities. We seek to achieve this by focusing our efforts on the three areas defined below. Please indicate which area your organization is applying under:

Building Healthy and Sustainable Communities - through partnerships with organizations committed to improving the mental, physical, and environmental well-being of others in the communities where our associates live and work

Understanding and Supporting Economic Empowerment – through partnerships with organizations committed to supporting underserved people

Fueling Education, Training and Skills Development – through partnerships with organizations and institutions that stimulate education, job training and career development

Application Information (attach brief narrative):

1. Describe the nature of the request and indicate how MSC funding will support objectives.
2. If you have previously received MSC funding, indicate how this has assisted your organization in carrying out its mission.
3. Include the following items:
